

GOVERNMENT OF KERALA

**Report based on Socio Economic Survey
NSS 73rd Round**

**Key Indicators of Unincorporated Non-Agricultural
Enterprises (Excluding Construction) in Kerala**

(July 2015 - June 2016)

**NSS DIVISION
Department of Economics and Statistics**

Preface

The National Sample Survey Organization (NSSO) has been carrying out nationwide socio-economic survey covering various subjects on regular basis. Surveys on unincorporated non-agricultural enterprises conducted by the NSSO are the primary source of data on various indicators of economic and operational characteristics of such enterprises in manufacturing, trade and other services sector (excluding construction) at the national and state level. These are used for planning, policy formulation, decision support and as a necessary input for further economic and statistical analysis by various Government organizations, academicians, researchers and scholars. During the 73rd round (July 2015 to June 2016), NSSO carried out an all-India survey on unincorporated non-agricultural enterprises in manufacturing, trade, non-captive electricity generation & transmission and other service sector (excluding construction).

Department of Economics and Statistics (DES), Kerala has been participating in these surveys from the very beginning to provide more disaggregated results at district level. Main objective of state participation in the NSS programme is to provide a mechanism by which sample size will be increased and the pooling of the two sets of data would enable better estimates at lower sub state level, particularly at district level.

This report is based on the State Sample data on Unincorporated Non- Agricultural Enterprises (Excluding Construction) survey conducted by Department of Economics and Statistics in Kerala during July 2015 to June 2016 as part of the 73rd round of National Sample Survey.

The technical assistance provided by National Sample Survey Office, Government of India and the cooperation extended by the sample households is acknowledged. The work done by the supervisors and field staff who worked tirelessly to make the survey a success and all other staff in the National Sample Survey Division of DES who have contributed in diverse ways to the success of the survey and the subsequent production of the report are duly acknowledged.

I hope that, this report will be useful to the planners, policy makers, academicians and researchers. Suggestions for improvement of the content of the report will be highly appreciated.

Vikas Bhavan,
27/11/2019.

V.Ramachandran
Director.

HIGHLIGHTS OF THE SURVEY

Unincorporated Non–agricultural enterprises in Kerala (2015-16)

- A total of 21.30 lakhs un-incorporated non –agricultural enterprises were estimated in Kerala during 2015-16. Out of them 43.52 % was in rural areas and 56.48 % was in urban area.
- In Kerala (Rural + Urban) among the total number of enterprises estimated, OAE accounts 75.04 % and the remaining 24.96% was establishments.
- Of the total number of enterprises estimated 4.728 lakhs were manufacturing enterprises, 6.47 lakhs were trading enterprises and 10.1 lakhs were service enterprises.
- Out of the 15.98 lakhs OAE 7.42 lakhs (46.43%) were in rural area and 8.56 lakhs (53.57%) were in urban area. In case of establishments, out of 5.32 lakhs, 1.85 lakhs (34.77%) were in rural areas and 3.47 lakhs (65.23) % were in urban areas.

Workers engaged in unincorporated non-agricultural Enterprises in Kerala

- The number of workers estimated in unincorporated non- agricultural enterprises in Kerala during 2015-16 was 40.72 lakhs. Among them 14,93,082 (36.67 %) were in rural areas and 25,78,897 (63.33%) were in urban areas.
- In rural areas, workers engaged in OAEs are more than that of establishments in all the three categories viz, manufacturing 2,25,396 (27.51%) trade 2,49,533 (30.46%) and other services 3,44,389 (42.03%)
- In urban areas, workers engaged in establishments are more than that of OAEs in all the three categories viz., manufacturing 3,53,153 (22.36%) trade 5,26,565(33.34%) and other services 6,98,163 (44.21%)
- The “other service” sector had the highest percentage of workers for rural, urban and combined areas. Viz.42.69 %, 47.72% and 45.88 % respectively.

Operational characteristics in unincorporated non-agricultural Enterprises in Kerala

- In terms of ownership, during 2015-16 about 87.3% of all unincorporated non-agricultural Enterprises were proprietary in Kerala. Out of which 19.2% of the owner proprietors were females and the rest were males. About 8.3% of the enterprises were operated on partnership basis.
- Among OAEs, proprietary enterprises accounted for 86.9% in rural areas and 88.4 % in urban areas. The corresponding figures for establishment enterprises were 87.5% and 85.4% respectively.
- In unincorporated non-agricultural sector (excluding construction) about 97 % enterprises were perennial, 1% was seasonal enterprises and 2% were casual enterprises.
- In unincorporated non-agricultural sector (excluding construction) in Kerala, about 80% enterprises run the business at fixed location (within household premises - 27.2%, and with permanent structure 49.1%, with temporary structure 1% and without any structure 2.7 %) and about 20% enterprises operated outside household premises without any fixed location (street vendors- 17.9 % and mobile market 2.1 %)
- In Kerala, during 2015-16, about 35 % of OAEs in rural areas and 33% in urban areas were operated within household premises.
- In rural areas, about 43 % of OAEs and in urban areas about 38% OAEs were operated outside household premises with fixed location and 22 % OAEs in rural areas and 29% OAEs in Urban areas were outside household premises without fixed location
- In case of establishment 90% enterprises in rural areas and 94 % enterprises in urban areas are operated in outside household premises.
- In Kerala among unincorporated non-agricultural sector (excluding construction) 62.4% of all enterprises were registered under any Act or with any registration authority.
- The overall proportion of registered enterprises under survey coverage was high in urban areas (63%) as compared to rural areas (61.6%).

- Manufacturing sector had the highest percentage of unregistered enterprises (57.2%) and the Trade and other service sectors had unregistered enterprises 28% and 34.5 % respectively.

Economic characteristics in unincorporated non-agricultural Enterprises in Kerala

- Annual Gross Value Added per enterprises in un-incorporated non- agricultural enterprises was Rs.323203. In rural areas it was Rs.208452 and in urban areas it was 411597. The contribution of Manufacturing, Trading and other services in Kerala were Rs.220708, Rs.399580 and Rs.322251 respectively.
- Annual Gross Value Added per worker in Kerala was Rs.1,68,976. In rural areas it was Rs.1,29,213 and in urban areas it was 1,91,998. Annual Gross Value Added per worker in Manufacturing, Trading and other services in Kerala were Rs.1,09,345, Rs.2,07,167 and Rs.1,73,712 respectively.
- Annual Emoluments per hired worker was estimated as Rs.1,24,710. It was Rs.1,11,898 for rural areas and Rs.1,29,971 for urban areas.
- Value of owned fixed assets per enterprise in Kerala was estimated as Rs.4,46,381.
- The outstanding loan and interest per enterprise in Kerala was estimated as Rs. 71,943.
- The annual value of operating expenses per enterprise was estimated as Rs. 2,29,342 in all sectors. Principal operating expenses per enterprise was estimated as Rs.1,70,370, ie., about 74% of the total operating expenses.

Chapter One

1. Introduction

1.1 Background

The National Sample Survey Office (NSSO), Ministry of Statistics and Programme Implementation (MOSPI), Government of India, since its inception in 1950 has been conducting nationwide integrated large scale sample surveys, employing scientific sampling methods, to generate data and statistical indicators on diverse socio-economic aspects. Along with the household based socio-economic surveys, *Enterprise surveys* as follow up surveys of Economic Census (EC) are also being conducted by NSSO, periodically, since the first Economic Census in the year 1977. So far 15 such follow up surveys on non-agricultural enterprises have been conducted by NSSO starting from the survey on *Unorganised Manufacturing - Non-Directory Establishments and Own-Account Enterprises* during NSS 33rd round (July 1978 – June 1979) to the Survey on *Unincorporated Non-Agricultural Enterprises (Excluding Construction)* of NSS 73rd round (July 2015- June 2016).

Participation of State

Kerala has been participating in the nation-wide sample survey planned by NSSO from the very beginning on matching sample size basis. From 62nd round onwards Kerala is participating with 50 % additional sample with the objective of increasing the precision of estimates and obtaining estimates at district level. In the present round Government of Kerala is participating with matching sample size.

1.2 Objective of the Survey

The survey on Unincorporated Non-Agricultural Enterprises (Excluding Construction) of NSS 73rd round (July 2015- June 2016) was conducted as a repeat survey of NSS 67th round (July 2010 –June 2011) survey on the same subject. NSS 67th round was the first NSS round which covered the entire unincorporated non-agricultural sector (excluding construction) in a focused way as a follow-up survey of EC. In this round different industry sectors were covered in an integrated approach instead of covering them in isolation as done in previous NSS rounds. The survey was designed to generate estimates of various operational and economic characteristics of the unincorporated non-agricultural enterprises in manufacturing, trade and other services (excluding construction) at more disaggregated *activity category* level.

1.3 Comparability of results of NSS 73rd round with other sources of data on unincorporated sector Enterprises

1.3.1 NSS 73rd round and NSS 67th round

NSS Surveys on unorganised/ unincorporated sector enterprises are designed to have information on the operational and economic characteristics of this sector for effective policy formulation. At the same time, they are also intended for generating periodic economic indicators that could be used in National Accounts. Accordingly, coverage of NSS enterprise surveys generally is restricted to the sectors for which no other official data source is available. Similarly, certain concepts and definitions also undergo periodic changes in an attempt to make them consistent with the latest System of National Accounts (SNA). As a result, estimates obtained from NSS surveys on same topic conducted over different time points may not be directly comparable with each other.

The survey of unincorporated non-agricultural enterprises (excluding construction) of NSS 73rd round was planned as a repeat survey of the survey on same topic conducted during NSS 67th round (July 2010- June 2011). However, the

Working Group of NSS 73rd round, while deciding the coverage of the survey suggested the following changes:

- Activities related to Non captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA) under NIC 2008 codes 35103, 35105, 35106, 35107, 35109, which were not covered in NSS 67th round are included in the coverage of NSS 73rd round. It was observed by the Working Group that this activity, which was not covered in previous NSS enterprise surveys and no alternative data source was available, needs to be brought into the coverage of NSS 73rd round.
- Two additional special codes, namely, 64193: Chit funds and 64921: Investment club are introduced under NIC 2008 Div.64: Financial service activities other than insurance and pension funding. These special codes were introduced to capture detailed information on some important financial activities which were understood to have a sizable presence in the unincorporated sector
- NIC 2008 Div.65: Insurance, reinsurance and pension funding, except compulsory social security and NIC 2008 code 6622: Activities of insurance agents is excluded from the coverage of NSS 73rd round: Since Insurance Sector in the country is only present in the incorporated sector, the inclusion of this activity did not carry much meaning, which was also clear from the analysis of data of NSS 67th round. Further, data on activities of insurance agents is available from Insurance Regulatory and Development Authority of India (IRDAI).

In addition to the difference in activity coverage, the following changes in the concepts and definitions followed for collecting the information and presenting estimates were also introduced in NSS 73rd round as a deviation from NSS 67th round:

- The office bearers of Self Help Groups (SHGs) and the active members (i.e. those members of SHG who regularly participates in the meetings) were

treated as working owners and were included in estimates of workers generated from the results of NSS 67th round. The active members of SHGs were not considered as working owners (and therefore workers) in NSS 73rd round. However, information on active members of SHGs was separately collected in this round to have a comparable study with 67th round if needed.

- The purchase value of the goods sold in the same condition as purchased and the sale value of goods sold in the same condition as purchased were included respectively in the estimates of operating expenses and receipts in the results released from NSS 67th round survey. Whereas in NSS 73rd round tabulation, adopting the SNA practices for such activities, the purchase value of traded goods were excluded from the operating expenses and the trade margin (instead of entire sale value) was included in the receipt side wherever possible¹.
- As a deviation from the approach followed in NSS 67th round, the procedure used for calculation of receipts, expenditure and Gross Value Added (GVA) for financial enterprises in NSS 73rd round rectified by (a) excluding the interest payment from the expenses part and (b) not directly taking the interest receipt in the output/receipt calculation of the financial enterprise. Instead, the output / receipt of the financial enterprise was worked out using the formula ‘FISIM + Actual Receipts’ using the FISIM² formula with a reference rate of 7.71 percent for the period 2015-16. The GVA is also effectively changed.
- For Non Profit Institutions Serving Households (NPISH) and other enterprises engaged in non-market production, output is calculated by cost approach using the formula *Output of NPISH = Intermediate Consumption (IC) + Compensation of employees (CE)*³ and the GVA for NPISH is calculated by the formula *Net Value Added (NVA) + Consumption of Fixed Capital (CFC)* where *NVA* being *Output – IC* (which is equal to *CE*). As *CFC* is not available from the survey, the GVA could not be calculated for NPISH and other enterprises engaged in non-market production and instead, *NVA* is presented for such enterprises.

¹ *In case of food services activities, though receipt from traded goods like bread bakery products, dairy products, alcoholic and non-alcoholic beverages were collected separately, separate expense figures for these items are not available and therefore, the adjustment could not be made.*

² *FISIM-financial intermediation services indirectly measured.*

³ The value of non-market Output=Intermediate consumption + compensation of employees + consumption of fixed capital + (other taxes (less subsidies) on production. Since 'other taxes on production' for non-market producers are not available from the survey, the approximation was made.

For presentation of estimates obtained from NSS 73rd round, the activity categories similar to those used in NSS 67th round survey reports are adopted. However, any comparison between the estimates obtained from these two surveys needs to take into consideration the above mentioned differences in coverage, concepts and definitions.

1.3.2 Treatment of Active members of SHG in NSS 73rd round

With reference to the treatment of active members of SHG as working owners both in Economic Census as well as NSS 67th round survey, the issue was considered in detail by the Working Group of NSS 73rd round and made the following observations:

- Self-help groups (SHGs) principally carry out the activity of financial intermediation.

The funds of the SHGs are created from individual members' deposits and loans taken from banks. The members of the SHGs undertake economic activities, either individually or collectively, using micro-credit from the respective SHGs. Some of the SHGs undertake collective economic activities (say stone-cutting, rice processing, running a ration shop, cooking mid-day meal etc.) based on group credit from the SHG and labour and management by members under the name of the SHG.

- Active members (i.e., office bearers and other members who regularly attends meetings, etc.) of SHGs that provide financial intermediation services only for its own members are not to be treated as “worker” of the SHG.
- However, a paid staff employed (full-time or part-time) by the SHG will be treated as a worker. Needless to say, a member running his/her own enterprise – whether individually or collectively – using micro-finance from the SHG will be treated as a worker of the enterprise, but not of the SHG. An enterprise run collectively by the members under the name of the SHG should be treated as a separate enterprise.

1.4 Report of 73rd Round survey on Unincorporated Non-Agricultural Enterprises (Excluding Construction)

The results of NSS rounds are released in reports based on comprehensive tabulation of subject parameters and indicators in various cross classifications generated from the sample data. Corresponding to the survey on Unincorporated Non-Agricultural Enterprises (Excluding Construction) of NSS 73rd round, the results are released in this report. This report includes both Operational Characteristics and Economic Characteristics of Unincorporated Non-Agricultural Enterprises (Excluding Construction) in Kerala.

1.5 Contents of this Document

This document brings out the key results of survey on Unincorporated Non-Agricultural Enterprises (Excluding Construction) in Kerala of NSS 73rd round. It contains three Chapters and four Appendices. Chapter Two outlines main features of the survey. Summary of findings of the Survey are presented in Chapter Three.

The State tables are presented in Appendix A. Appendix B gives the concepts and definitions followed in the Survey. Appendix C provides the details of the sample design and estimation procedure for the survey. A copy of the schedule of enquiry – “Schedule 2.34” used in the survey is given in Appendix D.

Main features of the survey

2.1 Schedule of Enquiry

2.1.1 The schedule of enquiry of survey on ‘Unincorporated Non-Agricultural Enterprises (Excluding Construction)’ (Schedule 2.34) was designed to collect information on the operational characteristics of the unincorporated non-agricultural enterprises such as their type of ownership, nature of operation, type of enterprise, their status of registration, problem faced in operation, government assistance received, employment particulars, use of ICT etc. and their economic characteristics measured in terms of operating expenses and receipts, Gross Value Added, compensation to workers, owned and hired fixed assets, indebtedness status in terms of outstanding loans, etc. Specific information was also collected to have some estimates related to skill development, Swachh Bharat Abhiyan and also to classify the unincorporated enterprises as MSMEs and others. Change in inventory during the accounting year/ last 365 days in respect of enterprises where information was collected from book of accounts and the loan amount advanced by enterprises engaged in financial activities were also collected.

2.2 Scope and Coverage

2.2.1 Geographical Coverage: The survey covered the whole of the Indian Union.

2.2.2 Subject Coverage: The coverage of NSS 73rd round (July 2015 – June 2016) was unincorporated non-agricultural enterprises belonging to three sectors viz., Manufacturing, Trade and Other Services (excluding construction).

The survey covered the following broad categories:

- (a) Manufacturing enterprises excluding those registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948
- (b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948
- (c) Enterprises engaged in cotton ginning, cleaning and baling (code 01632 of NIC-2008) excluding those registered under Factories Act, 1948
- (d) Enterprises manufacturing beedi and cigar excluding those registered under beedi and cigar workers (conditions of employment) Act, 1966

- (e) Non captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA)
- (f) Trading enterprises
- (g) Other Services sector enterprises excluding construction

Categories of enterprises under coverage in (a) to (g) above were:

- (a) Proprietary and partnership enterprises [excluding Limited Liability Partnership (LLP) enterprises]
- (b) Trusts, Self-Help Groups (SHGs), Non-Profit Institutions (NPIs), etc.

Following enterprises were excluded from the coverage:

- (a) Enterprises which are incorporated i.e. registered under Companies Act, 1956
- (b) The electricity units registered with the Central Electricity Authority (CEA)
- (c) Government and public sector enterprises
- (d) Cooperatives

2.3 Conceptual Framework

2.3.1 **Survey Period:** The survey was conducted during the period July 2015- June 2016.

2.3.2 Reference period

2.3.2.1 *Last 30 days preceding the date of survey or last month* was used as the reference period to collect most of the data. Various items of receipts and expenses as well as data on employment, emoluments, rent, interest, net surplus and value added for the enterprises were collected for the above reference period only. However, for seasonal enterprises the reference period referred to the last 30 days (preceding the date of survey), if they have worked continuously for last 30 days or more (including scheduled holidays) in the season in which it was surveyed (current season). For seasonal enterprises which have worked for less than 30 days in the current season, last month will referred to an average month in the last working season.

2.3.2.2 For some of the items like value of fixed assets, amount of loan outstanding etc., the reference period was 'as on the date of survey'. For some other items like net additions to fixed assets, number of months operated, number of other economic activities taken up etc., the period of reference was the 'last 365 days preceding the date of survey'. For enterprises maintaining accounts and giving information from their books of accounts, reference year, 'last 30 days/ last month' and 'last date of the reference year' would respectively relate to 'last accounting year for which information is available', 'last month of the said accounting year' and 'last date of the accounting year'. If the information for the entire year was available from the book of accounts, the same was divided by '*the number of months worked*' to arrive at the monthly figures

2.3.3 **Enterprise:** An enterprise is an undertaking which is engaged in the production and/ or distribution of some goods and/ or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household or by several households jointly, or by an institutional body.

2.3.4 **Non-agricultural enterprise:** All enterprises covered under Sections 'C' to 'S' of NIC-2008 are termed as "non-agricultural enterprises".

2.3.5 **Unincorporated non-agricultural enterprises:** Those non-agricultural enterprises which are not incorporated (i.e. not registered under Companies Act, 1956). Further, the domain of 'unincorporated enterprises' excluded (a) enterprises registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948 or bidi and cigar manufacturing enterprises registered under bidi and cigar workers (condition of employment) Act, 1966, (b) government/public sector enterprises and (c) cooperatives. In addition, Self Help groups (SHGs), Private Non-Profit Institutions (NPIs) including Non-Profit Institutions Serving Households (NPISH) and Trusts are also considered. For definitions of NPI and NPISH refer to para. 1.19 of Appendix B.

2.3.6 **Non-Profit Institutions (NPI):** Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them.

2.3.7 **Enterprises engaged in non-market production:** Enterprises that provide most of their output to others free or at prices which are not economically significant, i.e., at prices which do not have a significant influence on the amounts the producers are willing to supply or on the amounts purchasers wish to buy. Their major income will be coming from grants and donations. NPISHs provide non-market goods and services to households financed mainly by transfers from non-governmental sources - households, corporations or non-residents. Non-Profit Institutions Serving Households (NPISHs) are examples of enterprises engaged in non-market production, which provide non-market goods and services to

households financed mainly by transfers from non-governmental sources - households, corporations or non-residents.

2.3.8 Own-account Enterprise: An enterprise, which is run without any hired worker employed on a fairly regular basis¹, is termed as an own account enterprise.

2.3.9 Establishment: An enterprise which is employing at least one hired worker on a fairly regular basis is termed as establishment. Paid or unpaid apprentices, paid household member/servant/resident worker in an enterprise are considered as hired workers.

2.3.10 Worker: A worker is defined as all persons working within the premises of the enterprise who are in the payroll of the enterprise as also the working owners and unpaid family workers.

¹ "fairly regular basis" means the major part of the period when operation(s) of an enterprise are carried out during a reference period.

2.3.11 Formal hired worker: A formal hired worker is one having continuity of job and eligible for paid annual leave and also eligible for social security benefits like provident fund or insurance provided by the employer.

2.3.12 Informal hired worker: An informal hired worker is not having continuity of job and/or not eligible for paid annual leave and/or not eligible for social security benefits like provident fund or insurance provided by the employer.

2.3.13 Other worker/ helper: This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers / helpers who are associated with the activities of the enterprise during the reference month are considered in this category.

2.3.14 Compensation of employees: Compensation of employees is the total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period. It is recorded on accrual basis.

2.3.15 Fixed Assets: Assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities were classified as fixed assets. These cover all goods, new or used, that have a normal economic life of more than one year from the date of purchase.

2.3.16 Operating Expenses: The total value of services purchased and other expenses incurred during the reference period by an enterprise on raw materials, electricity, fuel, lubricants and auxiliary materials consumed; cost of maintenance, etc was considered as 'operating expenses'.

2.3.17 Receipts: The sale value of services produced together with the value of services rendered to other concerns and other receipts incidental to entrepreneurial activities including the value of products and by-products manufactured, if any, by an enterprise during the reference period was considered as 'total receipts'.

2.3.18 Gross Value Added: Gross value added is taken as additional value created by the process of production of an enterprise to the economy. Gross value added is calculated by deducting 'total operating expenses' and 'distributive expenses' from the value of 'total receipts' during the reference period. 'Distributive expenses' includes excise duties, sales tax, non-deductible vat, outward freight and transport charges, commission to selling agents etc.

2.3.19 Broad Activity Categories: The activities under coverage of the survey have been classified into four broad heads: Manufacturing, Non-captive electricity generation and transmission, Trade and Other Services.

2.4 Sample Size

2.4.1 First stage units: For rural India, the number of villages (Census Enumeration Blocks for Kerala) surveyed in the central sample was 8484 and the number of urban blocks/ Census Enumeration Blocks surveyed was 7839. In addition to this, a “State Sample” was also surveyed by the State/UT Governments who participated in this survey. The results presented in this document are, however, based on central sample alone.

2.4.2 Second Stage Units: The unincorporated non-agricultural enterprises were the ultimate sampling units in NSS 73rd round survey.

The survey was conducted in 376 Panchayath wards in rural areas and 236 urban blocks in urban area. Out of total 13280 enterprises surveyed 7956 were located in rural areas and 5324 were in urban areas. The number of first stage units allocated and surveyed and the enterprises surveyed in the State sample is given in **Statement 1**. The category-wise distribution of the enterprises surveyed is given in **Statement 2**.

Statement 1: Number of first stage (village/ blocks) units allocated and surveyed by State									
State	Number of FSUs allocated			Number of FSUs surveyed			Number of enterprises surveyed		
	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	Total
Kerala	376	236	612	376	236	612	7953	5360	13313

The broad activity category-wise distribution of the enterprises surveyed is given in **Statement 2**.

Statement 2: Number of enterprises surveyed by broad activity category

Chapter Three

Summary of findings

3.1 Introduction

3.1.1 The Enterprise survey, conducted in NSS 73rd round (July 2015 – June 2016) was designed to exclusively cover all the unincorporated non-agricultural enterprises in manufacturing, trade and other services sector (excluding construction). The survey also covered *non-captive* electricity generation and transmission under NIC 2008 group 351. Enterprises registered under Companies Act, 1956, the electricity units registered with the Central Electricity Authority (CEA), Government and public sector enterprises and Cooperatives were outside the coverage of the survey. From the selected enterprises, detailed data was collected on both their operational and economic characteristics.

3.1.2 This chapter presents estimates of some key characteristics of unincorporated non-agricultural enterprises for the reference period. In line with the two proposed main reports on the survey results, this chapter has been divided into two main sections viz. (i) Some Operational characteristics of unincorporated non-agricultural enterprises, and (ii) Economic Characteristics of unincorporated non-agricultural enterprises. Estimates are presented for the Broad Activity categories, i.e. Manufacturing, Non-captive Electricity Generation and Transmission, Trade and Other services.

3.1.3 The term ‘enterprise’ is used in general to represent OAEs and also *establishments* as per the usual practice in NSS. In the statements, ‘all’ is used to denote all the enterprises taken together. A “-” has been used in the statements and tables if no enterprise was surveyed in that particular level of disaggregation. On the other hand, the figure “0” appears in some levels of disaggregation when the estimated figure is very low and has become “0” due to rounding off.

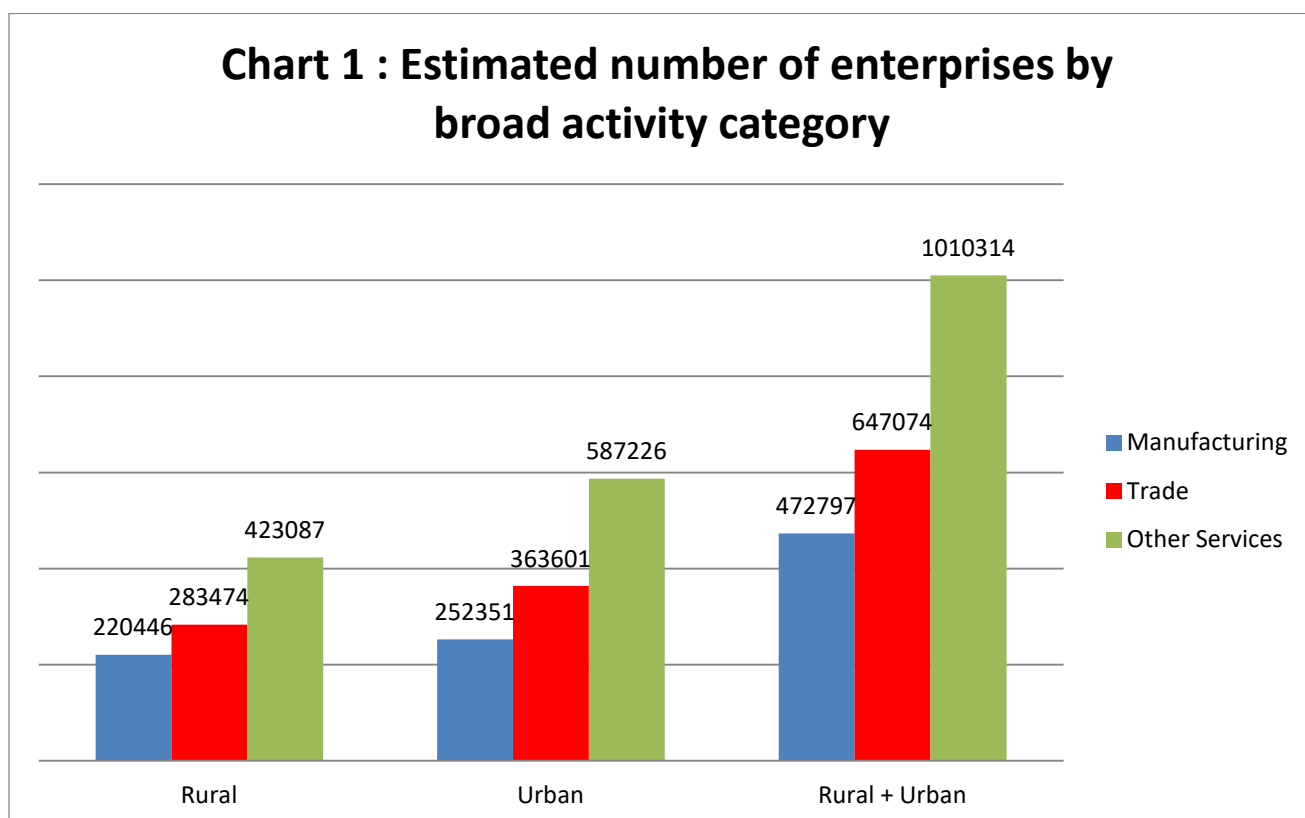

3.2 Estimated number of Enterprises

- 3.2.1 The survey estimated the number of unincorporated non-agricultural enterprises in Kerala during 2015-16 as 21.3 lakhs and category-wise distribution is given in **Statement-3**. Out of them 43.52 % was in rural areas and 56.48 % was in urban area. The pictorial representation is given in Chart-1.

3.2.3. Out of the total number of enterprises 56.48% (1203178 Nos.) were in urban areas and the remaining 43.52% (927007 Nos.) were in rural areas. Out of the total estimated number of enterprises in Kerala, 22.20 % (422797 Nos.) were engaged in manufacturing, 30.38% (647074Nos) enterprises were in trading and 47.43% (1010314 Nos.) were in other services group.

The percentage distribution of enterprises by broad activity category for each sector is given in **Statement 5**. The pictorial representations of Manufacturing, Trade and Other Service categories of Rural and Urban sectors are given in Chart 2, 3 & 4 respectively.

3.3 Estimated number of Workers

The number of workers in unincorporated non-agricultural enterprises in the State during 2015-16 was estimated as 40.72 lakhs. In this 14.93 lakhs were in rural sector and 25.79 lakhs were in urban sector. The broad activity category-wise distribution of the same is given in **Statement 6**. This is pictorially represented in Chart 5 and 6.

Statement 6: Estimated number of workers by enterprise types and sector for each broad activity category

3.4 Type of ownership of enterprises

The percentage distribution of enterprises by type of ownership it had is given in Statement 8. It was observed that 87.3% of the enterprises were proprietary, out of which only 19.2 % of the owner proprietors were females and the rest were males. 8.3 % of enterprises were operated on partnership basis. Self Help Group constitutes about 3.9% of the total enterprises. Enterprises operated by Trust and Others were 0.3 % each.

Statement 8: Percentage distribution of enterprises by type of ownership and sector										
Type of Ownership		Rural			Urban			Rural + Urban		
		OAE	ESTT	All	OAE	ESTT	All	OAE	ESTT	All

3.5 Nature of operation of enterprises

The percentage distribution of enterprises by nature of operation it had during 2015-16 in Kerala is given in Statement 9. It shows that, about 97% of the enterprises in unorganised sector in Kerala were perennial, about 1 % enterprises were seasonal and about 2 % enterprises were casual in nature of operation

Statement 9: Percentage distribution of enterprises by nature of operation for each broad activity category

<i>Broad activity category</i>	<i>Rural</i>			<i>Urban</i>			<i>Rural + Urban</i>		
	<i>perennial</i>	<i>seasonal</i>	<i>casual</i>	<i>perennial</i>	<i>seasonal</i>	<i>casual</i>	<i>perennial</i>	<i>seasonal</i>	<i>casual</i>
<i>Manufacturing</i>	93.0	2.3	4.7	94.8	1.1	4.1	94.0	1.7	4.3
<i>Trade</i>	99.0	0.4	0.7	98.9	1.0	0.1	98.9	0.7	0.3
<i>Other Services</i>	97.2	1.1	1.7	97.9	0.7	1.4	97.6	0.9	1.5
<i>All</i>	96.8	1.2	2.1	97.5	0.9	1.6	97.2	1.0	1.8

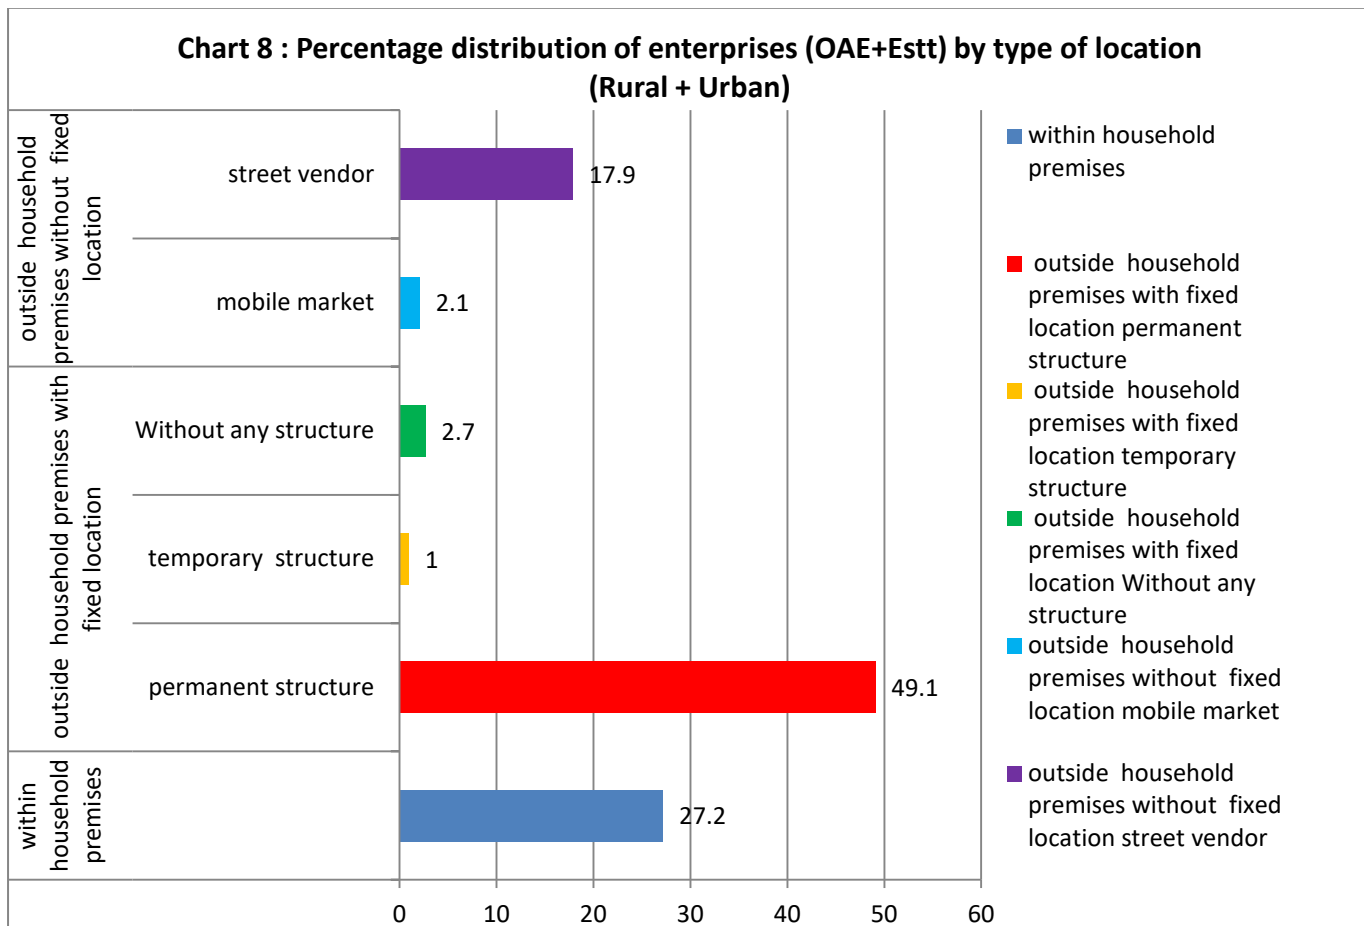

3.6 Location of operation of enterprises

The percentage distribution of enterprises by type of location of operation it had during 2015-16 in Kerala is given in Statement 10. In Rural sector about 30% enterprises were within household premises, 52 % enterprises were outside household premises with fixed location and the remaining 18 % were outside household premises without fixed location. In Urban sector about 25% enterprises were within household premises, 53 % enterprises were outside household premises with fixed location and the remaining 22 % were outside household premises without fixed location.

**Statement 10: Percentage distribution of enterprises by type of location for sector
and enterprise type**

Location of enterprise		percentage distribution of enterprises								
		Rural			Urban			Rural + Urban		
		OAE	ESTT	All	OAE	ESTT	All	OAE	ESTT	All
within household premises		34.8	10.1	29.9	33.0	5.5	25.1	33.8	7.1	27.2
outside household premises with fixed location	permanent structure	39.6	84.6	48.6	33.4	89.3	49.5	36.3	87.7	49.1
	temporary structure	1.1	1.1	1.1	0.5	1.7	0.8	0.8	1.5	1.0
	Without any structure	2.7	1.2	2.4	3.9	0.5	2.9	3.4	0.7	2.7
outside household premises without fixed location	mobile market	1.5	0.1	1.2	3.6	0.9	2.8	2.6	0.6	2.1
	street vendor	20.2	2.8	16.7	25.6	2.1	18.8	23.1	2.4	17.9
All		100	100	100	100	100	100	100	100	100

While considering Kerala as whole (Rural + Urban) about 27% enterprises in unorganised sector were within household premises, about 53 % enterprises were outside household premises with fixed location and the remaining 20 % were outside household premises without fixed location. This distribution is pictorially given in Chart 8.

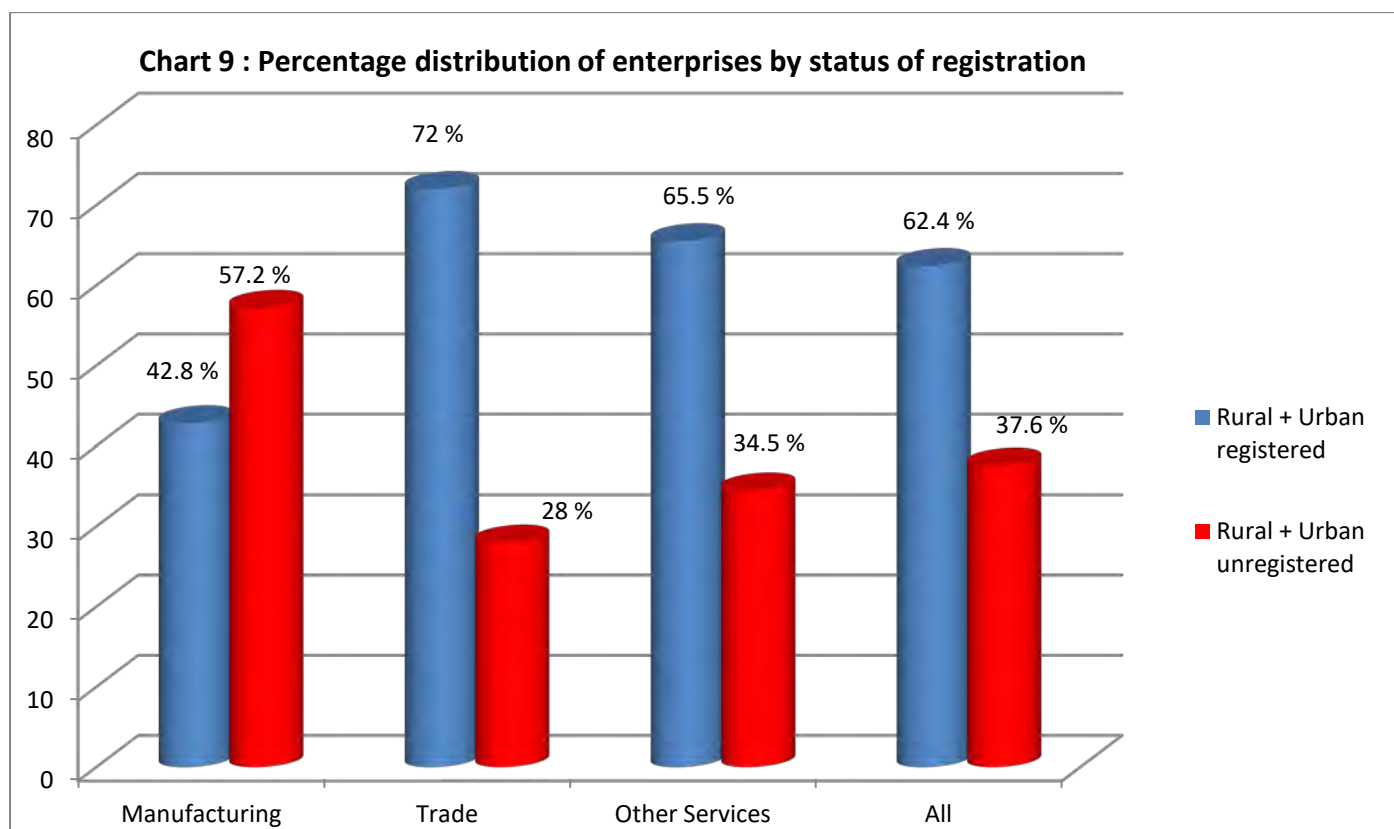

3.7 Status of Registration of enterprises

Information about the status of registration of enterprises under various industry specific agencies or authorities like State Directorate of Industries, Khadi and Village Industries Commission, Development Commissioner of Handicraft/ handlooms, various commodity Boards, DGFT, Pollution Control Board, EPF Organisation, Sale Tax etc., was collected in the survey.

As per the estimates obtained from the survey results, the percentage distribution of status of registration of unorganised sector enterprises during 2015-16 in Kerala is given in Statement 11. In Rural sector about 62% enterprises were registered and the remaining 38 % were unregistered. In Urban sector about 63 % enterprises were registered and the remaining 37 % were unregistered. While considering Kerala as whole (Rural + Urban) about 62.4% enterprises were registered under any of these acts/ authorities during 2015 -16 and the remaining 37.6 % were unregistered. This distribution is pictorially given in Chart 9.

Statement 11: Percentage distribution of enterprises by status of registration for each broad activity category

Broad activity category	Rural		Urban		Rural + Urban	
	registered	unregistered	registered	unregistered	registered	unregistered
Manufacturing	40.7	59.3	44.5	55.5	42.8	57.2
Trade	72.8	27.2	71.5	28.5	72.0	28.0
Other Services	65.0	35.0	65.8	34.2	65.5	34.5
All	61.6	38.4	63.0	37.0	62.4	37.6

3.8 Non-Profit Institutions among unincorporated enterprises

Non-Profit Institutions (NPIs) are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control and finance them. Information about NPIs whose major income is received from grants/ donations or from sources other than grants/ donations was separately recorded in the survey.

The Statement 12 gives the percentage distribution of unincorporated enterprises by their NPI status in Kerala during 2015-16. About 2.5 % enterprise was reported to be Non Profit Institutions with 0.1 % reported to have received their major receipts either from grants or donations.

Among the broad activity category ‘other services’, 3.6 % of the enterprises was NPIs in Kerala. The corresponding share was 2.6 % in rural areas and 4.2% in urban areas.

Statement 12: Percentage distribution of enterprises receiving assistance by broad activity category									
Broad activity category	Rural			Urban			Rural + Urban		
	NPI with major receipts from		Not NPI	NPI with major receipts from		not NPI	NPI with major receipts from		not NPI

Trade	0	0.6	99.4	0	2.2	97.8	0	1.5	98.5
Other Services	0.3	2.3	97.3	0.2	4.0	95.7	0.3	3.3	96.4
All	0.2	1.5	98.3	0,1	3.0	96.9	0.1	2.4	97.5

3.9 Estimated Annual Gross Value Added (GVA) per enterprises.

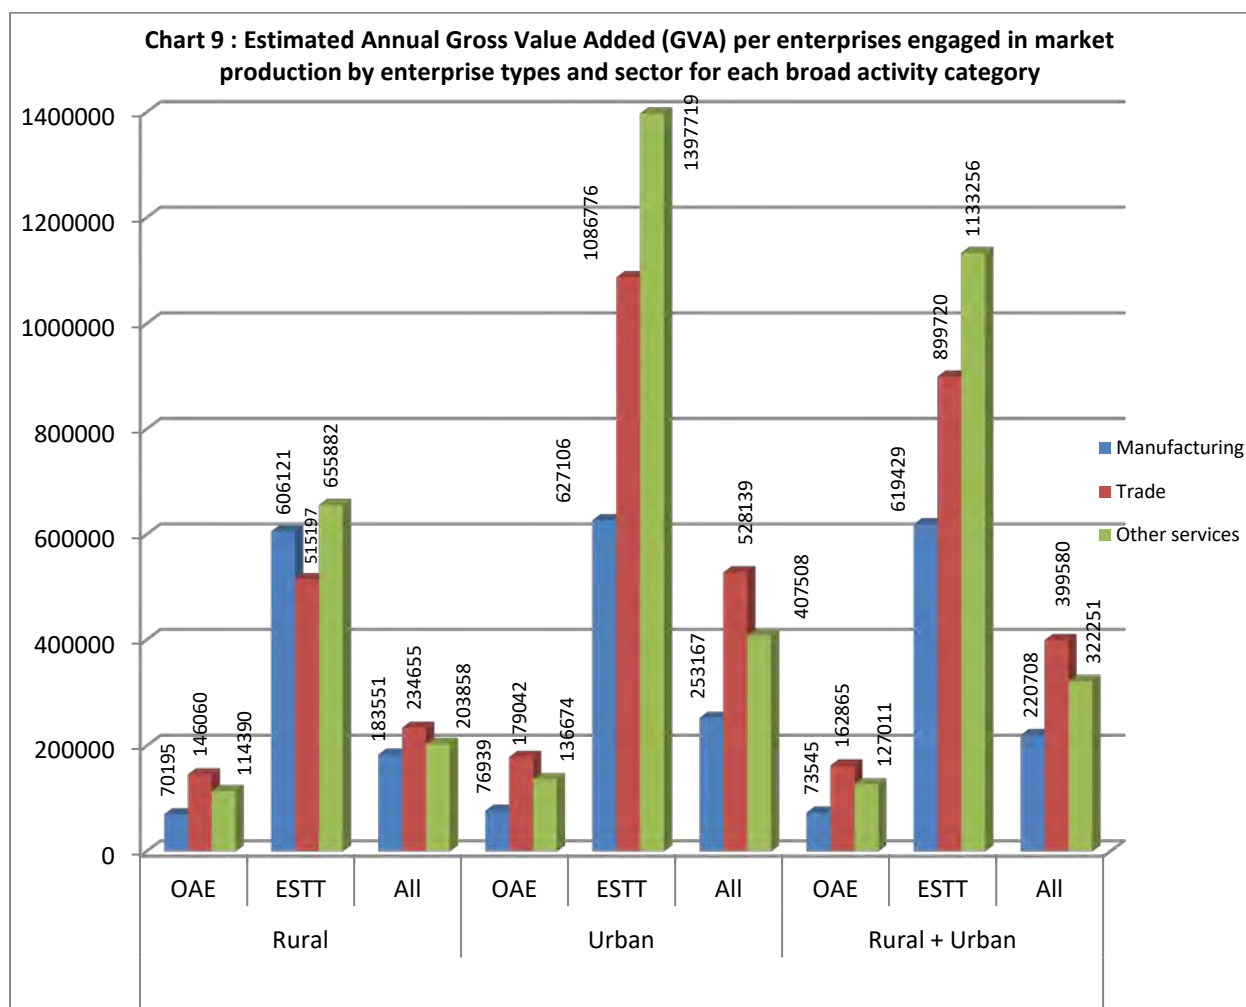

Gross Value Added (GVA) is an important economic indicator that measures the contribution of a particular sector to the economy. It gives the value of goods and services produced less the cost of all intermediate consumption that are directly attributable to that production.

Estimated Annual Gross Value Added (GVA) per unincorporated non-agricultural enterprises (excluding construction) engaged in market production by enterprise types and sector for each broad activity category in Kerala during 2015-16 is given in statement13. Its pictorial representation is given in Chart 9.

During the year 2015-16, the annual gross value added per unincorporated non-agricultural enterprises engaged in market production was estimated as Rs.3, 23,203. The annual gross value added per unincorporated non-agricultural enterprises engaged in market production in Manufacturing sector was Rs. 2,20,708, in Trade sector was Rs.3,99,580 and in Other Service sector was Rs. 322251,

Statement 13: Estimated Annual Gross Value Added (GVA) per enterprises engaged in market production by enterprise types and sector for each broad activity category

3.10 Estimated Annual Gross Value Added (GVA) per worker.

Gross Value Added per Worker (GVAPW) is a very important measure of labour productivity obtained by dividing the real output (i.e. gross value added) by the total number of workers employed by the enterprises. The worker definition for this survey includes both full time and part-time workers including working owners, hired workers (i.e., persons who are in the payroll of the enterprise), unpaid family members who help in the entrepreneurial activities and other helpers and apprentices.

The annual GVA per Worker for enterprises engaged in market production in Kerala during 2015-16 was estimated as Rs. 1,68,976. The broad activity category 'Trade' had the highest estimated GVA per worker with Rs. 2,07,167 and the least GVA per worker was reported in the manufacturing category (Rs. 1,09,345). In all the broad activity categories, establishments had higher GVA per worker than OAEs. Further, GVA per worker for urban areas were higher than GVA per worker in rural areas for all broad activity categories. The details are in Statement 14. Its pictorial representation is given in Chart 10.

3.11 Annual Emolument per hired worker

The workers in the unincorporated non-agricultural sector in the State is dominated by own account workers and unpaid family members helping with the household enterprises.

The estimates of workers derived from the survey showed that only 40% of the estimated number of workers in the unincorporated non-agricultural sector (excluding construction) during 2015 -16 is *hired worker* (See Statements 6 and 15). The survey collected detailed information on the emoluments paid to its hired worker.

The average annual emoluments per hired worker were higher in urban areas than rural areas. The average annual emolument per hired worker estimated from the survey was Rs.1,24,710. The highest emolument per hired worker was reported for 'other services (Rs.1,36,127) followed by trading (Rs.1,13,382) and manufacturing (Rs.1,17,057). Details are given in Statement 17.

Statement 15: Annual emoluments per hired worker and estimated number of hired workers for each broad activity category and sector

3.12 Fixed Assets owned by Enterprise

The survey collected information on various fixed assets owned and hired by the unincorporated enterprises in Kerala during 2015-16. For the purpose of the survey, fixed assets are defined as those *produced* assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities and covered all assets that had a normal economic life of more than one year from the date of purchase viz. building, plant & machinery, transport equipment, tools & other fixed assets, software and database, information, computer and telecommunication equipment, capital work in progress). The information on the market value of these fixed assets owned as on last date of the reference period was collected separately for each asset. Whenever information was collected from the book of accounts, net closing value, i.e., closing values after the depreciation was recorded.

The estimated value of total owned fixed assets per enterprise by broad activity category for different enterprise types are given **Statement 16**.

In Kerala, the market value of owned fixed assets per enterprise was estimated as Rs.4,46,381. By taking all the enterprises together, the market value of owned fixed assets per enterprise in urban areas was Rs. 5,16,374 and the corresponding value in rural areas was Rs.3,55,537.

The per enterprise value of owned fixed assets for Establishments was Rs.11,79,721 and that of OAEs was Rs.2,02,408. That is the per enterprise value of owned fixed assets for Establishments was about 5.8 times than that of OAEs.

The broad activity category *other Services* reported the highest value of owned fixed assets per enterprise (Rs.5,81,298) followed by the Trading (Rs.3,87,380) and manufacturing (Rs.238829).

Appendix B

Concepts & Definitions

CONCEPTS AND DEFINITIONS

1. Important concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

1.1 Population coverage: The following rules regarding the population/households covered are to be remembered while visiting households for the purpose of listing of households and enterprises:

1. Under-trial prisoners in jails and indoor patients of hospitals, nursing homes etc., were excluded, but residential staffs therein were considered while listing was done in such institutions. The persons of the first category were considered as normal members of their parent households and were considered there. Convicted prisoners undergoing sentence was outside the coverage of the survey.
2. Floating population, i.e., persons without any normal residence were not considered. But households residing in open space, roadside shelter, under a bridge, etc., more or less regularly in the same place, were taken into account.
3. Foreign nationals were not considered, nor do their domestic servants, if by definition the latter belong to the foreign national's household. If, however, an enterprise was run by a member of such household located within the premises of the household or without any fixed premises, it was listed as an enterprise.
4. Persons residing in barracks of military and paramilitary forces (like police, BSF, etc.) were kept outside the survey coverage due to difficulty in conduct of survey therein. However, civilian population residing in their neighbourhood, including the family quarters of service personnel, was covered.
5. Orphanages, rescue homes, *ashrams* and vagrant houses were outside the survey coverage but enterprises run by them and located within the premises of those institutions were listed. However, persons staying in old age homes, students staying in *ashrams*/hostels and the residential staff (other than monks/ nuns) of these ashrams were treated as forming households (as per the standing practice in NSS) for the purpose of identifying enterprises through such households. For orphanages, although orphans were not listed, the persons looking after them and staying there were considered as forming households.

1.2 House: Every structure, tent, shelter, etc. is a house irrespective of its use. It may be used for residential or non-residential purpose or both or even may be vacant.

1.3 Household: A group of persons normally living together and taking food from a common kitchen constitutes a household. It includes temporary stay-aways (those whose total period of absence from the household is expected to be less than 6 months) but excludes temporary visitors

and guests (expected total period of stay less than 6 months). Even though the determination of the actual composition of a household was left to the judgment of the head of the household, the following procedures were adopted as guidelines.

(i) Each inmate (including residential staff) of a hostel, mess, hotel, boarding and lodging house, etc., constitutes a single-member household. If, however, a group of persons among them normally pool their income for spending, they are together treated as forming a single household. For example, a family living in a hotel is treated as a single household.

(ii) In deciding the composition of a household, more emphasis is placed on 'normally living together' than on 'ordinarily taking food from a common kitchen'. In case the place of residence of a person is different from the place of boarding, he or she was treated as a member of the household with whom he or she resides.

(iii) A resident employee, or domestic servant, or a paying guest (but not just a tenant in the household) was considered as a member of the household with whom he or she resides even though he or she was not a member of the same family.

(iv) When a person sleeps in one place (say, in a shop or in a room in another house because of space shortage) but usually takes food with his or her family, he or she was treated not as a single member household but as a member of the household in which other members of his or her family stays.

(v) If a member of a family (say, a son or a daughter of the head of the family) stays elsewhere (say, in hostel for studies or for any other reason), he/ she is not considered as a member of his/ her parent's household. However, he/ she is considered as a single member household if the hostel was listed.

1.4 Enterprise: An enterprise is an undertaking which is engaged in the production and/ or distribution of some goods and/ or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household, or by several households jointly, or by an institutional body.

1.5 Non-agricultural enterprise: All enterprises covered under Sections 'C' to 'S' of NIC-2008 are "non-agricultural enterprises". The NIC-2008 booklet may be used for recording NIC codes in various schedules. All non-agricultural enterprises will henceforth be referred to as NAE for this survey.

1.6 Unincorporated non-agricultural enterprises: Non-agricultural enterprises which are not incorporated (i.e. registered under Companies Act, 1956) will only be covered. Further, the domain of 'unincorporated enterprises' excludes (a) enterprises registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948 or beedi and cigar manufacturing enterprises registered under beedi and cigar workers (conditions of employment) Act, 1966 or Limited Liability Partnership Act, 2008, (b) government/public sector enterprises and (c) cooperatives. Thus

coverage was restricted primarily to all household proprietary and partnership enterprises. In addition, Self Help groups (SHGs), Private Non-Profit Institutions (NPIs) including Non-Profit Institutions Serving Households (NPISH) and Trusts were covered.

1.7 Manufacturing Enterprise: A manufacturing enterprise is a unit engaged in the physical or chemical transformation of materials, substances or components into new products. It covers units working for other concerns on materials supplied by them. Also included are units primarily engaged in maintenance and repair of industrial, commercial and similar machinery & equipment, which are, in general, classified in the same class of manufacturing as those specialising in manufacturing the goods.

All activities covered by NIC – 2008 divisions 10 to 33 and the activity of cotton ginning, cleaning and baling (NIC - 2008 code 01632) was covered in the present survey. *It is important to note that production of goods for the sole purpose of domestic consumption was not considered as manufacturing.*

1.8 Enterprises engaged in non-captive electricity generation and transmission: Activities related to Non captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA) under NIC 2008 codes 35103, 35105, 35106, 35107, 35109 are covered in the survey and tabulated under the broad activity category ‘non-captive electricity generation and transmission’

1.9 Trading Enterprise: A trading enterprise is an undertaking engaged in trade. Trade is defined to be an act of purchase of goods and their disposal by way of sale without any intermediate physical transformation of the goods. Thus all the trading activities, both wholesale and retail (perennial, casual or seasonal) listed under NIC-08 divisions 45 to 47 were treated as trade. The activities of intermediaries who do not actually purchase or sell goods but only arrange their purchase and sale and earn remuneration by way of brokerage and commission were also treated as trade. Thus purchase and sale agents, brokers listed under NIC-08 division and auctioneers listed under NIC group were also be under the survey coverage.

1.10 Servicing Enterprise: A servicing enterprise or service sector enterprise is engaged in activities carried out for the benefit of a consuming unit and typically consists of changes in the condition of consuming units realized by the activities of servicing unit at the demand of the consuming unit. It is possible for a unit to produce a service for its own consumption provided that the type of activity is such that it could have been carried out by another unit.

1.11 Financial enterprise: A financial enterprise is a servicing enterprise that is principally engaged in financial intermediation or in auxiliary financial activities which are closely related to financial intermediation. Financial intermediation is a productive activity in which an institutional unit incurs liabilities on its own account for the purpose of acquiring financial assets by engaging in financial transactions on the market. The role of financial intermediaries is to channelise funds from lenders to borrowers by intermediating between them.

1.12 Household Enterprise: A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

1.13 Non-household Enterprise: Non-household enterprises are those which are institutional i.e. owned and run by the public sector (Central or State Government, local self-governments, local bodies, government undertakings, etc.), corporate sector, co-operative societies, other type of societies, institutions, associations, trusts, etc. Non-household enterprises covered under public sector are not included in the current survey.

1.14 Own-account Enterprise: An enterprise which is run without any hired worker employed on a fairly regular basis¹ is termed as an own account enterprise.

1.15 Establishment: An enterprise which is employing at least one hired worker on a fairly regular basis is termed as establishment. Paid or unpaid apprentices, paid household member/servant/resident worker in an enterprise are considered as hired workers.

1.16 Perennial enterprise: Enterprises that are run more or less regularly throughout the year are called perennial enterprises.

1.17 Seasonal enterprise: Seasonal enterprises are those, which are usually run in a particular season or fixed months of a year.

1.18 Casual enterprise: Enterprises that are run occasionally, for a total of at least 30 days in the last 365 days, are called 'casual enterprises'.

1.19 Classification of enterprises based on ownership:

(i) *Proprietary:* When an individual is the sole owner of an enterprise it is a proprietary enterprise. Own account production of fixed assets for own use, when produced by a single member, are classified as proprietary enterprise.

(ii) *Partnership:* Partnership is defined as the 'relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all'. There may be two or more owners, belonging to the same or different households, on a partnership basis, **with or without formal registration** (where there is a tacit understanding about the distribution of profit among the so-called partners). Own account production of fixed assets, when produced by two or more members belonging to the same or different households will be classified as partnership

¹"fairly regular basis" means the major part of the period when operation(s) of an enterprise are carried out during a reference period.

enterprises. Thus, own account production of fixed assets by a group of households for community use will be classified as partnership enterprise. **Note that partnership enterprises registered under Limited Liability Partnership (LLP) Act, 2008 are excluded from coverage of the survey. Also, partnership enterprises registered under Factories Act, 1948 (other than Section 85) will be outside the survey coverage.**

(iii) *Trust*: An arrangement through which one set of people, the trustees, are the legal owners of property which is administered in the interest of another set, the beneficiaries. Trusts may be set up to provide support for individuals or families, to provide pensions, to run charities, to liquidate the property of the bankrupts for the benefit of their creditors, or for the safe keeping of securities bought by trusts with their investor's money. The assets, which trusts hold are regulated by law, must be administered in the interests of the beneficiaries, and not for the profit of the trustees.

(iv) *Non-Profit Institutions (NPI)*: Non-profit institutions are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but the units that establish, control or finance them cannot appropriate surpluses. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which the NPI's receive. For this reason, they are frequently exempted from various kinds of taxes.

NPIs are principally market producers but they may engage in non-market production also. It is important to distinguish between NPI's engaged in market and non-market production as this affects the sector of the economy to which an NPI is allocated.

Most market NPIs serving businesses are created by associations of the businesses whose interests they are designed to promote. They consist of chambers of commerce, agricultural, manufacturing or trade associations, employers' organizations, research or testing laboratories or other organizations or institutes which engage in activities which are of mutual interest or benefit to the group of businesses that control and finance them.

Non-Profit Institutions Serving Households (NPISH): NPISHs are necessarily non-government non-market NPIs. **Non-market producers are producers that provide most of their output to others free or at prices which are not economically significant, i.e., at prices which do not have a significant influence on the amounts the producers are willing to supply or on the amounts purchasers wish to buy. Their major income will be coming from grants and donations. NPISHs provide non-market goods and services to households financed mainly by transfers from non-governmental sources - households, corporations or non-residents.**

NPISHs may be distinguished not only by the fact that they are incapable of providing financial gain to the units which control or manage them, but also by the fact that **they must rely principally on funds other than receipts from sales (such as grants/ donation) to cover their costs of production or other activities.**

(v) *Self-help Groups*: A self-help group (SHG) is a financial intermediary usually composed of between 10-20 local persons. Most self-help groups are located in India, though SHGs can also be found in other countries, especially in South Asia and Southeast Asia.

Members make small regular savings contributions over a few months until there is enough capital in the group to begin lending. Funds are lent back to the members or at times to others. In India, many SHGs are 'linked' to banks for the hand delivery of microcredit.

1.20 Mixed Activity: There are enterprises that carry out a number of activities simultaneously. For example, a bakery may also sell cold drinks, a rice mill may sell sugar, a factory may run a hospital in its premises, etc. Each such activity is treated as a separate enterprise if information for them is separately available. If the accounts are not separable then the data pertaining to the enterprise as a whole will be collected and the enterprise is classified as having mixed activities and the activities of such enterprises are a mixture of NIC's. The activities may be mixed at any level of NIC, but for the present survey an enterprise will be considered to have mixed activities if its activities are different at 2-digit level of NIC-2008. The appropriate NIC in such cases will be determined on the basis of major activity. Major activity refers to the activity which yields maximum income/turnover/employment. The above criteria are applied in the given order, i.e. income first, then turnover and then employment, to determine the major activity.

1.21 Multiple Activity: Since many of the entrepreneurs belonging to the unorganised and informal sector operate at small or marginal levels, the phenomenon of carrying out more than one activity simultaneously or at different points of time is quite prevalent. If the activities are carried out at one point of time at the same location and the information is not separately available, then it will be taken as "mixed activity". Carrying out of more than one economic activity by the entrepreneur during the reference year is called multiple activities. It differs from mixed activities in the sense that multiple activity is with respect to the entrepreneur whereas mixed activity is with respect to the enterprise. However, an entrepreneur of a manufacturing enterprise manufacturing woollen garments before winter and cotton clothes before summer will not be considered as carrying out multiple activities. Some examples of multiple activities are: i) a person providing computer services during day-time as an own account worker and also providing tuition in the evening in his own coaching centre, ii) A household servant is making paper envelopes in free time iii) a person carrying out agricultural activity at sowing / harvesting season and doing carpentry at the same time or at other times, etc.

1.22 **Location of Enterprise:** In the survey, the location of enterprises was collected against six codes as listed under:

within household premises		1
outside household premises-		
with fixed premises and with permanent structure	Any structure made out of bricks, mud, bamboos etc. will be treated as a permanent structure if it cannot be removed as a whole without dismantling.	2
with fixed premises and with temporary structure/ kiosk/ stall	Temporary structures can be removed from its present location with some effort. Some examples are stalls, kiosks, etc.	3
with fixed premises but without any structure	Fixed premises but with no structure (except for some makeshift arrangement for shade etc.)	4
mobile market	If the enterprise shifts from market to market but the owner (e.g. <i>hat</i> vendor) is allowed to sit in a particular place of the market, i.e. if the location of the enterprise inside each market is fixed.	5
without fixed premises (street vendors, etc.)	Street vendors	6

1.23 **Worker:** For this survey, worker is defined as persons working within the premises of the enterprise who are in the payroll of the enterprise as well as the working owners and unpaid family members who help in entrepreneurial activity. The apprentices took by the enterprise also will be treated as worker. The worker may serve the enterprise in any capacity - primary or supervisory. He/she may or may not receive wage/salary in return to his/her work incidental to or connected with the entrepreneurial activity. Sales persons appointed by an enterprise for selling its services and apprentices, *paid or unpaid*, are also treated as workers. **In case of SHGs, if any member (including office bearers) performs the activities of the SHG by drawing remuneration, he/she is treated as hired worker. Members of SHG who attend meetings regularly or participate in the activities of the SHG including decision making process without taking any remuneration are not treated as a worker for the purpose of this survey. Instead, they are considered as ‘active members of SHG’.**

1.23.1 A worker need not mean that the same person will be working continuously; it only refers to a position. i.e., if one person is terminated and another person is appointed in his place, it is counted as 1 and not 2. A worker engaged for more than half of the normal working hours of the enterprise is treated as **full time worker**.

1.23.2 **Working owner:** In case of proprietary enterprises, if the owner himself/ herself works in the enterprise on a fairly regular basis, entry should be made against item 801. In fact, in most of the own-account enterprises the owner himself/ herself manages all activities of the enterprise without help of anybody else (on fairly regular basis). For all such enterprises essentially the

value '1' was recorded in the appropriate column against this item. In the case of partnership enterprises, if only one of the partners or some of the partners or all the partners work in the enterprise on a fairly regular basis then information for them shall be recorded against this item in appropriate column(s).

1.23.3 **Formal hired worker:** A formal hired worker is one having continuity of job, eligible for paid annual leave and also eligible for social security benefits like provident fund or insurance provided by the employer.

1.23.4 **Informal hired worker:** An informal hired worker is not having continuity of job and/or not eligible for paid annual leave and/or not eligible for social security benefits like provident fund or insurance provided by the employer. Several small enterprises are expected to have informal hired workers. Informal hired workers are again split into full-time and part-time workers. Persons working for more than half of the period of normal working hours of the enterprise on a fairly regular basis will be full-time workers. Persons working for less than or equal to half of the normal working hours of the enterprise on a fairly regular basis will be considered as part-time workers. Two part-time workers in an enterprise will be counted as 2 and not 1 full-time worker.

1.23.5 It may be noted that for the purpose of making entry against items 802 and 803, **paid** household workers, servants and resident workers of the proprietor (in the case of proprietary enterprise) or partners (in the case of partnership enterprise) working in an enterprise are also treated as **hired workers**. They are as 'formal hired worker' or 'informal hired workers' depending upon the conditions of employment as mentioned above. It is possible that for an OAE also, hired workers may be found in some situations. This may happen when an enterprise is identified as OAE at the listing stage on the basis of one year reference period, but in the reference month there is a hired worker (informal) in the enterprise. In case of an SHG, if some or any of the members who work for the enterprise drawing remuneration on a fairly regular basis then only those members who take remuneration regularly will be treated as hired worker for the purpose of the survey.

1.23.6 **Helper/ apprentice:** An apprentice is a learner or beginner who works with a skilled or qualified person in order to learn the practical aspects of a trade or a profession for a fixed time period.

1.23.7 **Other worker:** This includes all persons belonging to the household of the proprietor or households of the partners who are working in or for the enterprise without regular salary or wages. Persons working as exchange labourer in the enterprise without salary or wages will also be covered in this category. All unpaid household workers who are associated with the activities of the enterprise during the reference month are considered for recording entries against this item.

1.24 Fixed Assets: Assets held for the purpose of producing or providing goods or services and not for resale in the normal course of entrepreneurial activities are classified as fixed assets. The distinguishing feature of a fixed asset is not that it is durable in some physical sense, but that it may be used repeatedly or continuously in production over a long period of time, which is taken to be more than one year. These cover all tangible goods, new or used, that have a normal economic life of more than one year from the date of purchase. Fixed assets include not only structures, machinery and equipment but also intellectual property products such as software or artistic originals that are used in production. It may be noted that the assets to be considered here are assets of the enterprise. Hence, if owner of a proprietary enterprise has made some investments (like NSC, PPF, etc.) in her/his personal capacity, these are not considered here.

1.25 Compensation of employees: Compensation of employees is the total remuneration, in cash or in kind, payable by an enterprise to an employee in return for work done by the employee during the accounting period. Self employed persons (like working owners or unpaid family workers) receive mixed income and not compensation of employees. However, the books of accounts of some enterprises show salary payment to one or two working owners. In such cases, these payments were recorded as compensation to employee. Compensation of employees has two main components, i) wages and salaries payable in cash or in kind and ii) value of social contributions payable by the employer. Wages and salaries also included goods or services provided to employees as remuneration in kind instead of, or in addition to, remuneration in cash.

Coverage of the survey in terms of NIC – 2008 codes (considering the corrigendum as issued on 3rd May, 2011) was as follows:

Table B1: NIC 2008 codes under coverage of the survey	
Division/ Group	Description
Manufacturing	
10	Manufacture of Food Products
11	Manufacture of Beverages
12	Manufacture of Tobacco Products
13	Manufacture of Textiles
14	Manufacture of Wearing Apparel
15	Manufacture of Leather and Related Products
16	Manufacture of Wood and Products of Wood and Cork, except Furniture; Manufacture of Articles of Straw and Plaiting Materials
17	Manufacture of Paper and Paper Products
18	Printing and Reproduction of Recorded Media
19	Manufacture of Coke and Refined Petroleum Products
20	Manufacture of Chemicals and Chemical Products
21	Manufacture of Pharmaceuticals, Medicinal Chemical and Botanical Products
22	Manufacture of Rubber and Plastics Products

Table B1: NIC 2008 codes under coverage of the survey	
Division/ Group	Description
23	Manufacture of other non-metallic Mineral Products
24	Manufacture of Basic Metals
25	Manufacture of Fabricated Metal Products, except Machinery and Equipment
26	Manufacture of Computer, Electronic and Optical Products
27	Manufacture of Electrical Equipment
28	Manufacture of Machinery and Equipment n.e.c.
29	Manufacture of Motor Vehicles, Trailers and Semi-Trailers
30	Manufacture of Other Transport Equipment
31	Manufacture of Furniture
32	Other Manufacturing
33	Repair and Installation of Machinery and Equipment
3510	Electric power generation, transmission and distribution (except 35101, 35102, 35104)
01632	Cotton Ginning, Cleaning and Bailing
Trading	
45	Wholesale and Retail Trade and Repair of Motor Vehicles and Motorcycles
46	Wholesale Trade, except of Motor Vehicles and Motorcycles
47	Retail Trade, except of Motor Vehicles and Motorcycles
Other Services	
37	Sewerage
38	Waste collection, treatment and disposal activities; materials recovery
39	Remediation activities and other waste management services
492	Other Land Transport (excluding 49212, 49213)
50	Water Transport
52	Warehousing and Support Activities for Transportation
53	Postal and Courier Activities
55	Accommodation
56	Food and Beverage Service Activities
58	Publishing Activities
59	Motion Picture, Video and Television Programme Production, Sound Recording and Music Publishing Activities
60	Broadcasting and Programming Activities
61	Telecommunications
62	Computer Programming, Consultancy and Related Activities
63	Information Service Activities
64193	Special code for Chit funds
643	Trusts, Funds and Other Financial Vehicles (including special codes 64309 for self-help groups)

Table B1: NIC 2008 codes under coverage of the survey	
Division/ Group	Description
649	Other Financial Service Activities Except Insurance and Pension Funding Activities (including special codes 64921 for investment club, 64929 for activities of private moneylenders)
661	Activities Auxiliary to Financial Service Activities, except Insurance and Pension Funding (excluding 6611)
6621	Risk and Damage Evaluation
663	Fund Management Activities
68	Real Estate Activities
69	Legal and Accounting Activities
70	Activities of Head Offices; Management Consultancy Activities
71	Architecture and Engineering Activities; Technical testing and Analysis
72	Scientific Research and Development
73	<i>Advertising and Market Research</i>
74	<i>Other Professional, Scientific and Technical Activities</i>
75	Veterinary Activities
771	Renting and Leasing of Motor Vehicles
772	Renting and Leasing of Personal and Household Goods
773	Renting and Leasing of Other Machinery, Equipment and Tangible Goods n.e.c.
78	Employment Activities
79	Travel Agency, Tour Operator and Other Reservation Service Activities
80	Security and Investigation Activities
81	Services to Buildings and Landscape Activities
82	Office Administrative, Office Support and Other Business Support Activities
85	Education
86	Human Health Activities
87	Residential Care Activities
88	Social Work Activities Without Accommodation
90	Creative, Arts and Entertainment Activities
91	Libraries, Archives, Museums and Other Cultural Activities
92	Gambling and Betting Activities (<i>coverage will be restricted to legal activities only</i>)
93	Sports Activities and Amusement and Recreation Activities
941	Activities of Business, Employers and Professional Membership Organizations
949	Activities of Other Membership Organizations (excluding 9492 and part of 9491 relating to organization)
95	Repair of Computers and Personal and Household Goods
96	Other Personal Service Activities

Table B2: NIC 2008 codes outside the coverage of the survey

1. All codes under sections:
 - A (Agriculture, forestry and fishing excluding 01632);
 - B (Mining and quarrying);
 - D (Electricity, gas, steam and air conditioning supply excluding 35103, 35105, 35106, 35107, 35109);
 - F (Construction);
 - O (Public administration and defence; compulsory social security);
 - T (Activities of households as employers; undifferentiated goods and services producing activities of households for own use);
 - U (Activities of extraterritorial organizations and bodies).
2. Codes: 36, 491, 49212, 49213, 493, 51, 641 (excluding special code 64193), 642, 65, 6611, 6622, 6629, 774, 942, 9491(organizations only), 9492

Appendix C

**Note on Sample Design and Estimation
Procedure**

NOTE ON SAMPLE DESIGN AND ESTIMATION PROCEDURE

1. Introduction

1.1 The National Sample Survey (NSS), set up by the Government of India in 1950 to collect socio-economic data employing scientific sampling methods, started its seventy third round from 1st July 2015. The survey continued up to 30th June 2016.

2. Outline of Survey Programme

2.1 **Subject Coverage:** The coverage of NSS 73rd round (July 2015 – June 2016) was unincorporated non-agricultural enterprises belonging to Manufacturing, Trade and Other Services (excluding construction).

The survey covered the following broad categories:

- (a) Manufacturing enterprises excluding those registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948
- (b) Manufacturing enterprises registered under Section 85 of Factories Act, 1948
- (c) Enterprises engaged in cotton ginning, cleaning and baling (code 01632 of NIC-2008) excluding those registered under Factories Act, 1948
- (d) Enterprises manufacturing beedi and cigar excluding those registered under beedi and cigar workers (conditions of employment) Act, 1966
- (e) Non-captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA)
- (f) Trading enterprises
- (g) Other Service sector enterprises (excluding construction)

Categories of enterprises under coverage in (a) to (g) above were:

- (a) Proprietary and partnership enterprises [excluding Limited Liability Partnership (LLP) enterprises]
- (b) Trusts, Self-Help Groups (SHGs), Non-Profit Institutions (NPIs), etc.

Following enterprises were excluded from the coverage:

- (a) Enterprises which were incorporated i.e. registered under Companies Act, 1956
- (b) The electricity units registered with the Central Electricity Authority (CEA)
- (c) Government and public sector enterprises
- (d) Cooperatives

[All acts were subject to subsequent amendments, if any]

2.2 Geographical coverage: The survey covered the whole of the Indian Union.

2.3 Period of survey and work programme: The period of survey was of one year duration starting on 1st July 2015 and ending on 30th June 2016. The survey period of this round was divided into four sub-rounds of three months' duration each as follows:

- sub-round 1 : July - September 2015
- sub-round 2 : October - December 2015
- sub-round 3 : January - March 2016
- sub-round 4 : April - June 2016

In each of these four sub-rounds equal number of sample first stage units (FSUs) i.e. villages/ blocks were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period. Attempt was made to survey each of the FSUs during the sub-round to which it was allotted. *Because of the arduous field conditions, this restriction was not strictly enforced in Andaman and Nicobar Islands, Lakshadweep, Leh (Ladakh) and Kargil districts of Jammu & Kashmir and rural areas of Arunachal Pradesh and Nagaland.*

2.4 Schedules of enquiry: During this round, the following schedules of enquiry were to be canvassed:

- Schedule 0.0 : list of households and non-agricultural enterprises
- Schedule 2.34 : unincorporated non-agricultural enterprises (excluding construction)

2.5 Participation of States: In this round all the States and Union Territories except Andaman & Nicobar Islands, Chandigarh, Dadra & Nagar Haveli and Lakshadweep were participating. The following was the matching pattern of the participating States/UTs.

<i>State/UT</i>	<i>Extent of matching</i>
Nagaland (U)	triple
Andhra Pradesh, Manipur, Telangana, Chhattisgarh	double
Gujarat, Maharashtra (U)	one and half
Remaining States/ UTs	equal

3. Sample Design

3.1 Outline of sample design: A stratified multi-stage design was adopted for the 73rd round survey.

Rural sector: The first stage units (FSU) were the 2011 Population Census villages in the rural sector. For rural part of Kerala, 2011 Population Census Enumeration Blocks (EBs) were taken as FSUs.

Urban sector: The first stage units (FSU) were the 2011 Population Census EBs in the urban sector. For those urban areas where Sixth EC data were not used latest updated UFS (Urban Frame Survey) blocks were the FSUs.

The ultimate stage units (USU) were enterprises for both the sectors. In the case of large FSUs, one intermediate stage of sampling was the selection of three hamlet-groups (hg's)/sub-blocks (sb's) from each large FSU.

3.2 Sampling frame used for selection of FSUs

Census 2011 list of villages was used as the sampling frame for **rural areas**. Auxiliary information such as number of enterprises, number of workers, type of enterprises, activities of enterprises, etc. available from Sixth EC frame was used for stratification, sub-stratification and selection of FSUs, for those rural areas where EC data were used. For other rural areas where EC data were not used, the auxiliary information on non-agricultural workers (i.e. household industry workers + other workers) based on Primary Census Abstract (PCA) 2011 were utilized for stratification, sub-stratification and selection of FSUs. For this purpose both main and marginal workers were considered.

In **rural areas of Kerala**, list of EBs as per Census 2011 was used as sampling frame.

EC data were used for the following 21 State/UTs in **semi-round 1** (sub-rounds 1 & 2): Andaman & Nicobar Islands, Assam, Chandigarh, Dadra & Nagar Haveli, Daman & Diu, Delhi, Goa, Haryana, Himachal Pradesh, Kerala, Lakshadweep, Manipur, Meghalaya, Mizoram, Nagaland, Puducherry, Punjab, Rajasthan, Sikkim, Tripura and Uttarakhand. For **all urban areas** of these 21 State/UTs, list of EBs as per Census 2011 was used as sampling frame. The latest updated list of UFS blocks was the sampling frame for the urban areas of remaining 15 State/UTs where EC data were not used in semi-round 1.

The sampling frame used for **semi-round 2** (sub-rounds 3 & 4) was entirely based on Sixth EC data.

3.3 Stratification: Each district was treated as a stratum. Within each district of a State/UT, generally speaking, two basic strata were formed:

(i) rural stratum comprising of all rural areas of the district and

(ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with *population 1.5 million or more* as per Census 2011, each of them formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum.

(iii) In case of rural sectors of Nagaland, one special stratum was formed within the State consisting of all the villages which were difficult to access.

3.4 Sub-stratification:

(i) **In rural areas of those States/UTs where EC data were used:** Three sub-strata were formed in the rural sector as follows:

Sub-stratum 1: Villages with at least 3 establishments (NDE/DE) under coverage as per Sixth EC data for the following categories:

<i>NIC 2008 codes</i>	<i>Description of activities</i>
<i>20, 21</i>	<i>Manufacture of chemicals, chemical products, pharmaceuticals, medicinal products etc.</i>
<i>451, 453</i>	<i>Sale of motor vehicles, motor vehicles parts and accessories</i>
<i>50</i>	<i>Water transport</i>
<i>521</i>	<i>Warehousing and storage</i>
<i>68</i>	<i>Real estate activities</i>
<i>582, 62, 631</i>	<i>Computer relating services</i>
<i>691</i>	<i>Legal activities</i>
<i>692</i>	<i>Accounting, book-keeping and auditing activities; tax consultancy</i>
<i>70, 71, 72, 73, 74, 78, 80, 81, 82</i>	<i>Research development, employment activities etc.</i>
<i>855</i>	<i>Educational support services</i>
<i>37, 381, 382, 39</i>	<i>Sanitary services</i>
<i>87, 88</i>	<i>Residential care activities, social work activities without accommodation</i>

Sub-stratum 2: Out of the remaining, villages having at least 8 establishments (NDE/DE) under coverage in the manufacturing and services sectors as per Sixth EC data;

Sub-stratum 3: Remaining villages of the stratum.

(ii) **In rural areas of those States/UTs where EC data were not used:**

If 'r' was the sample size allotted for a rural stratum, 'r/4' sub-strata were formed in that stratum. The villages within a stratum (district) as per frame were first arranged in ascending order of non-agricultural workers (i.e. household industry workers + other workers) as per PCA 2011. Then sub-strata 1 to 'r/4' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal number of non-agricultural workers taken into consideration as per PCA 2011.

(iii) **In rural areas of Kerala:**

Sub-stratum 1: EBs with at least 3 establishments (NDE/DE) under coverage as per Sixth EC data as mentioned in Table 1.1;

Sub-stratum 2: Out of the remaining, EBs having at least 8 establishments (NDE/DE) under coverage in the manufacturing and services sectors as per Sixth EC data;

Sub-stratum 3: Remaining EBs of the stratum.

(iv) **In urban areas of those States/UTs (except 1.5 million plus cities) where EC data was used:** Three sub-strata were formed in these areas as follows:

Sub-stratum 1: EBs with at least 3 establishments (NDE/DE) under coverage as per Sixth EC data and establishments mentioned in Table 1.1;

Sub-stratum 2: Out of the remaining, EBs having at least 8 establishments (NDE/DE) under coverage in the manufacturing and services sectors as per Sixth EC data;

Sub-stratum 3: Remaining EBs of the stratum.

(v) **Urban - 1.5 million plus cities where EC data was used:**

In each such stratum, **14 sub-strata** were formed as under:

Table C2: Coverage in terms of NIC 2008 codes for forming sub-strata in 1.5 million plus cities

<i>sub-stratum number</i>	<i>Description</i>	<i>Coverage in terms of NIC 2008 codes</i>
1	<i>EBs with one or more establishment in warehousing and storage</i>	521
2	<i>Out of the remaining, EBs with one or more establishment in accommodation, event catering and other food service activities</i>	55 , 562
3	<i>Out of the remaining, EBs with one or more establishment in real estate, legal, accounting, management consultancy, professional, scientific and technical etc.</i>	681, 69, 70, 71, 72, 73, 74, 78, 80, 81, 82
4	<i>Out of the remaining, EBs with one or more establishment in manufacture of non-metallic products, basic metals, recycling, fabricated metal products etc.</i>	23, 24, 25, 331
5	<i>Out of the remaining, EBs with one or more establishment in manufacture of food products and beverages</i>	101, 102, 103, 104, 105, 107, 11
6	<i>Out of the remaining, EBs with one or more</i>	13, 14, 15

Table C2: Coverage in terms of NIC 2008 codes for forming sub-strata in 1.5 million plus cities

<i>sub-stratum number</i>	<i>Description</i>	<i>Coverage in terms of NIC 2008 codes</i>
	<i>establishment in manufacture of textiles, wearing apparel, leather and related products</i>	
7	<i>Out of the remaining, EBs with one or more establishment in manufacture of wood and wood products, furniture, paper and paper products, printing, publishing of books, periodicals etc.</i>	16, 17, 18, 31
8	<i>Out of the remaining, EBs with one or more establishment in sale of motor vehicles and wholesale trade, except of motor vehicles and motorcycles</i>	451, 46
9	<i>Out of the remaining, EBs with one or more establishment in transport, supporting and auxiliary transport activities, travel agency, tour operators, financial service and insurance activities, postal, courier, software publishing, information service and communication etc.</i>	492, 50, 522, 53, 582, 61, 62, 63, 643, 649, 661, 662, 663, 79
10	<i>Out of the remaining, EBs with one or more establishment in veterinary, human health, residential care, social work activities and membership organizations</i>	75, 86, 87, 88, 941, 949
11	<i>Out of the remaining, EBs with one or more establishment in education</i>	85
12	<i>Out of the remaining, EBs with one or more establishment in remaining manufacturing activities</i>	016, 106, 108, 12, 19, 20, 21, 22, 26, 27, 28, 29, 30, 32, 332, 351
13	<i>Out of the remaining, EBs with one or more establishment in remaining other services activities</i>	37, 38, 39, 561, 563, 581, 59, 60, 639, 682, 771, 772, 773, 90, 91, 92, 93, 95, 96
14	<i>all the remaining EBs of the stratum</i>	

Note: In Delhi (urban), three EBs were found to have large number of enterprises (and so workers). To avoid repetition of these EBs in the sample lists in different semi-rounds for each sub-sample, these three EBs were covered in each sub-sample of each semi-round considering each of them as a separate sub-stratum (15, 16 and 17).

(vi) **In urban areas of those States/UTs where EC data were not used:**

For each stratum, there were two sub-strata based on the information as available from the latest available UFS blocks as follows:

sub-stratum 1: UFS blocks identified as Bazaar area (BA)/ Industrial area (IA)/ Hospital area (HA)/ Slum area (SA) which were likely to contain relatively higher number of enterprises

sub-stratum 2: remaining UFS blocks of the stratum

If the number of FSUs in the frame of a rural or urban sub-stratum was found to be less than 12, then separate sub-stratum were not formed and it was merged with the adjacent sub-stratum.

3.5 Total sample size (FSUs): 16348 FSUs were allocated for the central sample at all-India level. State wise allocation of sample FSUs is given in Table 1.

3.6 Allocation of total sample to States and UTs: All-India sample size (FSUs) was allocated to different State/UTs in proportion to total number of non-agricultural workers under coverage as per Fifth EC keeping in view the total allocation.

3.7 Allocation of State/UT level sample to rural and urban sectors: State/UT sample sizes were allocated to rural and urban sectors of the State/UT in proportion to number of non-agricultural workers under coverage as per Sixth EC for the States/UTs where EC data were used for frame preparation. For those States/UTs where EC data were not used, sample sizes were allocated to rural and urban sectors of the State/UT in proportion to non-agricultural workers (i.e. household industry workers + other workers) as per PCA 2011 within the State/UT. A minimum of 8 FSUs (minimum 4 each for rural and urban sector separately) were allocated to each State/UT.

3.8 Allocation to strata: Stratum allocations of State/UT for each sector were made in proportion to number of non-agricultural workers under coverage as per Sixth EC or in proportion to non-agricultural workers (i.e. household industry workers + other workers) as per PCA 2011 as suitable for the case. Stratum level allocation was adjusted to multiples of 4 with a minimum sample size of 4.

For special stratum formed in rural areas of Nagaland as discussed in para 3.3 (iii) 12 FSUs were allocated.

3.9 Allocation to sub-strata: Allocation to sub-strata was made in proportion to:

- (a) number of non-agricultural workers under coverage as per Sixth EC in both rural and urban areas for EC based frame,
- (b) non-agricultural workers (i.e. household industry workers + other workers) as per PCA 2011 for PCA based frame,
- (c) number of UFS blocks with double weightage to 'sub-stratum 1', wherever possible, when UFS blocks were used as sampling frame.

Minimum allocation for a sub-stratum had, in principle, been decided as 4 to control seasonal fluctuation.

3.10 Sampling of FSUs: Sampling of the First Stage Units was done separately in two phases – for first six months (July – December, 2015, 1st and 2nd sub-rounds) and next six months (January – June, 2016, 3rd & 4th sub-rounds). Samples were drawn in the form of two independent sub-samples in each phase for each sector ensuring stratum/sub-stratum allocation multiple of 2 (i.e. half of stratum/sub-stratum allocation which was multiple of 4). In the first phase, EC data were used for preparation of sampling frame for those States, for which data were available and for the remaining States, usual procedure of PCA based frame and UFS based frame had been used. For drawing of samples for 3rd and 4th sub-rounds only EC based sampling frame was used for all States/UTs.

3.11 Selection of FSUs:

For both rural and urban sectors for EC based frame: From each stratum/sub-stratum, required number of sample FSUs was selected by Probability Proportional to Size With Replacement (PPSWR), size being the total number of non-agricultural workers under coverage in the village/EB as per Sixth EC.

For rural sectors using PCA based frame: In rural areas, from each stratum/sub-stratum, FSUs were selected by PPSWR with size as non-agricultural workers (i.e. household industry workers + other workers) as per PCA 2011. For this purpose both main and marginal workers were considered.

For urban sectors using UFS frame: In urban areas, from each stratum/sub-stratum, FSUs were selected by SRSWOR scheme.

Both rural and urban samples were drawn in the form of two independent sub-samples in each phase of six months and equal number of samples were allocated among the two sub-rounds of each phase.

3.12 Formation of segment 9 and selection of hamlet-groups/ sub-blocks

3.12.1 Formation of Segment 9: Having determined the boundaries of the sample FSU, all non-agricultural enterprises having 20 or more workers in the entire FSU and having operated at least one day during last 365 days preceding the day of survey (hereinafter to be called as ‘big enterprises’) were listed and all the *eligible units under coverage* were surveyed. All the listed big units (whether under coverage or not) constituted segment 9. All *eligible enterprises under coverage* were surveyed in segment 9.

3.12.2 Criterion for hamlet-group/sub-block formation: Having constituted segment 9 as stated above, it was determined whether listing was to be done in the whole sample FSU or not. For this, approximate present population (P) and approximate total number of non-agricultural enterprises (E) for the whole FSU were ascertained first from knowledgeable persons.

Depending upon the values of ‘P’ and ‘E’, it was divided into a suitable number (say, D_P and D_E) of ‘hamlet-groups’ in the rural sector (except Kerala) and ‘sub-blocks’ in the urban sector and rural sector of Kerala as stated below. Final value of ‘D’ was the higher of the two values ‘ D_P ’ and ‘ D_E ’ based on the dual criteria.

Population/enterprise dual criteria			
population (P)	no. of hg's/ sb's formed (D_P)	no. of non-agricultural enterprises (E)	no. of hg's/ sb's formed (D_E)
less than 1200	1	less than 120	1
1200 - 1599	4	120 - 159	4
1600 - 1999	5	160 - 199	5
2000 - 2399	6	200 - 239	6
and so on	...	and so on	...

While considering enterprise criteria, segment 9 enterprises, if any, was excluded from the count of ‘E’.

For rural areas of Himachal Pradesh, Sikkim, Andaman & Nicobar Islands, Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban, Leh (Ladakh), Kargil districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups/sub-blocks was formed as follows:

Population/enterprise dual criteria			
population (P)	no. of hg's/ sb's formed (D _P)	no. of non-agricultural enterprises (E)	no. of hg's/ sb's formed (D _E)
less than 600	1	less than 120	1
600 - 799	4	120 - 159	4
800 - 999	5	160 - 199	5
1000 - 1199	6	200 - 239	6
and so on	...	and so on	...

3.12.3 Formation and selection of hamlet-groups/sub-blocks:

In case hamlet-group/sub-block was formed in the FSU, the same should be done either by more or less equalising population or by equalising number of non-agricultural enterprises. If the criterion for deciding the value of 'D' was population, then hg/sb was formed by equalising population. On the other hand, if enterprise criterion was used for deciding 'D', then the number of non-agricultural enterprises was equalised to form 'D' number of hg/sb. If the value of 'D' was same for both population and enterprise criteria, then hg/sb was formed by equalising population.

3.12.4 **Segments 1 & 2:** Two segments (in addition to segment 9 already formed) were selected from a large FSU wherever hamlet-groups/sub-blocks were formed in the following manner – Segment 1 was the hg/sb having maximum number of establishments under the coverage. Two more hg's/sb's were selected from the remaining hg's/sb's of the sample FSU with equal probability following the method of SRSWOR and combined to form Segment 2.

Listing and selection of the enterprises were done independently in the two selected segments.

The FSUs without hg/sb formation were treated as sample segment number 1.

3.13 Formation of Second Stage Strata and allocation of enterprises for schedule 2.34:

Sixteen (16) second-stage strata (SSS) were formed within each sample FSU. Composition of various SSS was as under:

- (i) 3 SSS considering various broad manufacturing groups was formed in each segment for **Manufacturing sector Establishments: SSS 1** – Food products and beverages, **SSS 2** – Cotton ginning, cleaning and bailing, textiles, wearing apparel, leather and leather products,

wood and wood products, furniture, paper and paper products, printing, etc., **SSS 3** – Grain mill products, prepared animal feeds, tobacco, petroleum, chemical and chemical products, pharmaceuticals, rubber, plastic, motor vehicle, transport equipments, electric power generation and other manufacturing activities.

(ii) 3 SSS was formed in each segment for **Trade sector Establishments**: **SSS 4** – Wholesale and retail trade and repair of motor vehicles and motorcycles, **SSS 5** – Other wholesale trade, **SSS 6** – Other retail trade.

(iii) 7 SSS was formed in each segment for **Service sector Establishments (other than trade)** corresponding to the following broad activities: **SSS 7** – Accommodation, Event catering and other food service activities, **SSS 8** – Transport, supporting and auxiliary transport activities, travel agency, tour operators etc., **SSS 9** – Financial service and insurance activities etc., **SSS 10** – Postal, courier, software publishing, information service and communication, **SSS 11** – Education, **SSS 12** – Veterinary, human health, residential care, social work activities and membership organizations, and **SSS 13** – Other services activities.

(iv) 3 SSS was formed in each segment for own account enterprises (**OAEs**) as follows: **SSS 14** – OAEs in Manufacturing, **SSS 15** – OAEs in Trade, and **SSS 16** – OAEs in Other services.

<i>SSS number</i>	<i>NIC 2008 codes</i>	<i>Description of major activities</i>
<i>Establishments</i>		
<i>Manufacturing</i>		
<i>1</i>	<i>101, 102, 103, 104, 105, 107, 11</i>	<i>Food products and beverages</i>
<i>2</i>	<i>01632, 13, 14, 15, 16, 17, 18, 31</i>	<i>Cotton ginning, cleaning and bailing, textiles, wearing apparel, leather and leather products, wood and wood products, furniture, paper and paper products, printing, etc.</i>
<i>3</i>	<i>106, 108, 12, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 35103, 35105, 35106, 35107, 35109</i>	<i>Grain mill products, prepared animal feeds, tobacco, petroleum, chemical and chemical products, pharmaceuticals, rubber, plastic, motor vehicle, transport equipments, electric power generation and other manufacturing activities</i>
<i>Trade</i>		
<i>4</i>	<i>45</i>	<i>Wholesale and retail trade and repair of motor vehicles and motorcycles</i>
<i>5</i>	<i>46</i>	<i>Other wholesale trade</i>
<i>6</i>	<i>47</i>	<i>Other retail trade</i>

<i>SSS number</i>	<i>NIC 2008 codes</i>	<i>Description of major activities</i>
<i>Other services</i>		
7	55 , 562	<i>Accommodation, event catering and other food service activities</i>
8	49211, 49219, 4922, 4923, 50, 52, 79	<i>Transport, supporting and auxiliary transport activities, travel agency, tour operators etc.</i>
9	64193 (chit funds), 643, 64309 (SHG), 6491, 6492, 64921 (investment club), 64929 (activity of private moneylenders), 6499, 6612, 6619, 6621, 663	<i>Financial service activities, except insurance and pension funding and other financial activities</i>
10	53, 58 - 62, 631, 639, 681, 69, 70, 71, 72, 73, 74, 771, 772, 773, 78, 80, 81, 82, 9511	<i>Postal, courier, software publishing, information service and communication</i>
11	85	<i>Education</i>
12	75, 86, 87, 88, 941, 9491 (organizations), 9499	<i>Veterinary, human health, residential care, social work activities and membership organizations</i>
13	37, 38, 39, 561, 563, 682, 90, 91, 92, 93, 9512, 952, 96	<i>Other services activities</i>
<i>OAEs</i>		
14	01632, 10-33, 35103, 35105, 35106, 35107, 35109	<i>Manufacturing</i>
15	45, 46, 47	<i>Trade</i>
16	37 - 39, 49211, 49219, 4922, 4923, 50, 52 - 63, 64193, 643, 64309, 6491, 64920, 64921, 64929, 6499, 6612, 6619, 6621, 663, 68, 69, 70 - 75, 771, 772, 773, 78 - 82, 85 - 93, 941, 949, 95, 96	<i>Other services</i>

3.14 Selection of enterprises

3.14.1 The **number of enterprises selected** for survey (excluding segment 9) from each FSU × segment × SSS was as given below:

<i>enterprise type</i>	<i>sector</i>	<i>SSS number</i>	number of enterprises surveyed	
			without hg/sb formation	with hg/sb formation (for each segment)
<i>establishments</i>	<i>manufacturing</i>	1	2	1
		2	2	1
		3	2	1
		sub-total	6	3
	trade	4	2	1
		5	2	1
		6	2	1
		sub-total	6	3
	services	7	2	1
		8	2	1
		9	2	1
		10	2	1
		11	2	1
12		2	1	
13		2	1	
sub-total	14	7		
OAEs	manufacturing	14	2	1
	trade	15	2	1
	services	16	2	1
	sub-total	6	3	

It may be noted that from each segment × SSS, at least one enterprise must be surveyed if there were some enterprises in the corresponding frame. In other words, as per the notations used in Blocks 5a and 5b of Schedule 0.0, $e > 0$ if $E > 0$ for each FSU × segment × SSS.

3.14.2 In addition to the above, **all the eligible enterprises of segment 9 were surveyed.**

3.14.3 **Selection of Enterprises:** Sample enterprises from each SSS were selected by SRSWOR.

However, **all the establishments in the frame were selected** for a broad category of establishments (manufacturing/trade/other services) in the following situations:

- (i) All the manufacturing establishments if total number of establishments in manufacturing SSSs was less than or equal to 6 considering both the segments 1 & 2
- (ii) All the trading establishments if total number of establishments in trading SSSs was less than or equal to 6 considering both the segments 1 & 2
- (iii) All the ‘other service sector’ establishments if total number of establishments in other services SSSs was less than or equal to 14 considering both the segments 1 & 2.

4. Estimation Procedure

4.1 Notations:

s = subscript for s-th stratum

t = subscript for t-th sub-stratum

m = subscript for sub-sample (m = 1, 2)

r = subscript for semi-round (r = 1, 2)

i = subscript for i-th FSU [village/ block/ EB]

d = subscript for a segment (d = 1, 2, 9)

j = subscript for j-th second stage stratum in an FSU/ segment (j=1, 2, 3 , 16)

k = subscript for k-th sample enterprise under a particular second stage stratum within an FSU/ segment

D = total number of hg's/ sb's formed in the sample

FSU $D^* = 0$ if $D = 1$

$= (D - 1)/2$ for FSUs with $D > 1$

N = total number of FSUs in any urban sub-stratum (for States where UFS based frame was used)

Z = total size of a rural/urban sub-stratum (= sum of sizes of all villages/EBs of a sub-stratum)

z = size of sample village/EB used for selection.

n = number of sample FSUs surveyed including ‘uninhabited’ and ‘zero cases’ but excluding casualty for a particular sub-sample and sub-stratum.

E = total number of enterprises listed in a second-stage stratum of an FSU / segment of sample FSU

e = number of enterprises surveyed in a second-stage stratum of an FSU / segment of sample FSU

x, y = observed value of characteristics x, y under estimation

X, Y = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$Y_{rstmidjk}$ = observed value of the characteristic y for the k -th enterprise in the j -th second stage stratum of the d -th segment ($d = 1, 2, 9$) of the i -th FSU belonging to the m -th sub-sample for the t -th sub-stratum of s -th stratum of the r -th semi-round.

However, for ease of understanding, a few symbols were suppressed in following paragraphs where they were obvious.

4.2 Formulae for Estimation of Aggregates for a particular sub-sample and stratum \times sub-stratum of a semi-round:

4.2.1 Schedule 0.0:

4.2.1.1 Rural:

- (i) For estimating the number of enterprises in a stratum \times sub-stratum possessing a characteristic:

$$\hat{Y} = \frac{\sum_{i=1}^Z n_i}{n} \frac{1}{z_i} \left[y_{i9} + y_{i1} + D_i \times y_{i2} \right]$$

where y_{i9}, y_{i1}, y_{i2} were the total number of enterprises possessing the characteristic y in segments 9, 1 & 2 of the i -th FSU respectively.

4.2.1.2 Urban:

- (a) States/UTs where EC based frame was used:

- (i) For estimating the number of enterprises possessing a characteristic:

$$\hat{Y} = \frac{\sum_{i=1}^Z n_i}{n} \frac{1}{z_i} \left[y_{i9} + y_{i1} + D_i \times y_{i2} \right]$$

where y_{i9}, y_{i1}, y_{i2} were the total number of enterprises possessing the characteristic y in segments 9, 1 & 2 of the i -th FSU respectively.

(b) States where UFS based frame was used:

(i) For estimating the number of enterprises possessing a characteristic:

$$\hat{Y} = \frac{N}{n} \sum_{i=1}^n \left[\frac{e_{i9} + y_{i1} + D_i \times y_{i2}}{e_{i9} + y_{i1} + D_i \times y_{i2}} \right]$$

where y_{i9}, y_{i1}, y_{i2} were the total number of enterprises possessing the characteristic in segments 9, 1 & 2 of the i -th FSU respectively.

4.2.2 Schedule 2.34:

4.2.2.1 Rural:

(a) Estimation formula for a sub-stratum:

(i) For enterprises selected in j -th second stage stratum:

$$\hat{Y}_j = \frac{Z}{n} \sum_{i=1}^j \frac{1}{z_i} \left[\frac{e_{i9j}}{\sum_{k=1}^j y_{i9jk}} + \frac{E_{i1j} e_{i1j}}{e_{i1j} \sum_{k=1}^j y_{i1jk}} + D_i \times \frac{E_{i2j} e_{i2j}}{e_{i2j} \sum_{k=1}^j y_{i2jk}} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

4.2.2.2 Urban:

(a) Estimation formula for a sub-stratum of a State/UT where EC based frame was used:

(i) For enterprises selected in j -th second stage stratum:

$$\hat{Y}_j = \frac{Z}{n} \sum_{i=1}^j \frac{1}{z_i} \left[\frac{e_{i9j}}{\sum_{k=1}^j y_{i9jk}} + \frac{E_{i1j} e_{i1j}}{e_{i1j} \sum_{k=1}^j y_{i1jk}} + D_i \times \frac{E_{i2j} e_{i2j}}{e_{i2j} \sum_{k=1}^j y_{i2jk}} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j \hat{Y}_j$$

(b) Estimation formula for a sub-stratum of a State/UT where UFS based frame was used:

(i) For enterprises selected in j-th second stage stratum:

$$\hat{Y}_j = \frac{N}{n_j} \left[\frac{E_{i1j}}{e_{i1j}} \sum_{k=1}^{e_{i1j}} y_{i1jk} + \frac{E_{i2j}}{e_{i2j}} \sum_{k=1}^{e_{i2j}} y_{i2jk} \right]$$

(ii) For all selected enterprises:

$$\hat{Y} = \sum_j Y_j$$

Note: For segment 9, an adjustment may be necessary if $E \neq e$ for a second-stage stratum due to casualty at the detailed enquiry stage. In that case, contribution of segment 9 (i.e. $\sum_{k=1}^{e_{i9j}} y_{i9jk}$) in the

above formulae may be replaced by $\frac{E_{i9j}}{e_{i9j}} \sum_{k=1}^{e_{i9j}} y_{i9jk}$, where E_{i9j} = (number of enterprises in the

frame of of segment 9 for j-th SSS of i-th FSU as per column (4) of Block 6a of Schedule 0.0) and e_{i9j} = (number of enterprises actually surveyed for segment 9 of j-th SSS of i-th FSU as per column (8) of Block 6a of Schedule 0.0)

$E_{i9j} = e_{i9j}$, if there was no casualty.

4.2.3 Estimate for a stratum for a semi-round:

$$\hat{Y}_s = \sum_t Y_{st}$$

4.3 Overall Estimate for Aggregates for a semi-round:

Overall estimate for aggregates for a stratum (Y_s) based on two sub-samples of a particular semi-round was obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

4.4 Overall Estimate of Aggregates at State/UT/all-India level for a particular semi-round:

The overall estimate \hat{Y} at the State/ UT/ all-India level for a particular semi-round was obtained by summing the stratum estimates Y_s over all strata belonging to the State/ UT/ all-India of that semi-round.

4.5 Estimates of Ratios of a semi-round:

Let \hat{Y} and \hat{X} be the overall estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level for a particular semi-round.

Then the combined ratio estimate (R) of the ratio $\frac{Y}{X}$ will be obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$.

4.6 Estimates of Error: The estimated variances of the above estimates will be as follows:

4.6.1 For aggregate Y:

$Var(\hat{Y}) = \sum \sum Var(Y_{st})$ where $Var(Y_{st})$ was given by

$Var(Y_{st}) = \frac{1}{4} (Y_{st1} - Y_{st2})^2$ where Y_{st1} and Y_{st2} were the estimates for sub-sample 1 and sub-sample 2 of a particular semi-round respectively for stratum 's' and sub-stratum 't'.

4.6.2 For ratio R:

$$MSE(\hat{R}) = \frac{1}{4X_{st}} \sum \sum \left[(Y_{st1} - Y_{st2})^2 + R^2 (X_{st1} - X_{st2})^2 - 2R(Y_{st1} - Y_{st2})(X_{st1} - X_{st2}) \right]$$

4.6.3 Estimates of Relative Standard Error (RSE):

$$RSE(\hat{Y}) = \frac{\sqrt{Var(\hat{Y})}}{\hat{Y}} \times 100$$

$$RSE(\hat{R}) = \frac{\sqrt{MSE(\hat{R})}}{\hat{R}} \times 100$$

4.7 Multipliers:

The formulae for multipliers at stratum/sub-stratum/second-stage stratum level for a sub-sample and schedule type were given below:

sector	sub-stratum	formula for multipliers		
		segment 9	segment 1	segment 2
Schedule 0.0				
rural	all	$\frac{Z}{n_{stm}} \times \frac{1}{z_{stmi}}$	$\frac{Z}{n_{stm}} \times \frac{1}{z_{stmi}}$	$\frac{Z_{st}}{n_{stm}} \times \frac{1}{z_{stmi}} \times D_{stmi}^*$
urban	for States/UTs with EC based frame	$\frac{Z}{n_{stm}} \times \frac{1}{z_{stmi}}$	$\frac{Z}{n_{stm}} \times \frac{1}{z_{stmi}}$	$\frac{Z_{st}}{n_{stm}} \times \frac{1}{z_{stmi}} \times D_{stmi}^*$
	for States/UTs with UFS based frame	$\frac{N_{st}}{n_{stm}}$	$\frac{N_s}{n_{st}} \times \frac{t}{m}$	$\frac{N_{st}}{n_{stm}} \times D_{stmi}^*$

sector	sub-stratum	formula for multipliers		
		segment 9	segment 1	segment 2
Schedule 2.34				
rural	all	$\frac{Z}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stm9j}}{e_{stm9j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stm1j}}{e_{stm1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D_{stmi}^* \times \frac{E_{stm2j}}{e_{stm2j}}$
urban	for States/UTs with EC based frame	$\frac{Z}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stm9j}}{e_{stm9j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times \frac{E_{stm1j}}{e_{stm1j}}$	$\frac{Z_{st}}{n_{stmj}} \times \frac{1}{z_{stmi}} \times D_{stmi}^* \times \frac{E_{stm2j}}{e_{stm2j}}$
	for States/UTs with UFS based frame	$\frac{N}{n_{stmj}} \times \frac{E_{stm9j}}{e_{stm9j}}$	$\frac{N_{st}}{n_{stmj}} \times \frac{E_{stm1j}}{e_{stm1j}}$	$\frac{N_{st}}{n_{stmj}} \times D_{stmi}^* \times \frac{E_{stm2j}}{e_{stm2j}}$
$j = 1,2,3, \dots, 16$				

Note:

- (i) For estimating any characteristic for any domain not specifically considered in sample design, indicator variable may be used.
- (ii) Multipliers had to be computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule.

5. Generation of combined estimate for the entire round: For this survey, combined estimates for the entire round were generated by combining semi-round wise estimates at domain level by taking simple average of the estimates.

5.1 Estimates for stratum/State/UT/ all-India was arrived at by considering simple average of the estimates as derived for each of the semi-rounds 1 and 2 using formulae as mentioned in paras 4.2 to 4.4.

$\hat{Y} = \frac{\hat{Y}_1 + \hat{Y}_2}{2}$ where \hat{Y}_1 and \hat{Y}_2 were the estimates of a particular characteristic, say, y for semi-rounds 1 and 2 respectively.

5.1.1 The estimated variance of aggregate \hat{Y} was given as:

$$\hat{Var}(\hat{Y}) = \frac{1}{4} (\hat{Var}(Y_1) + \hat{Var}(Y_2))$$

where $\hat{Var}(Y)$ and $\hat{Var}(Y)$ were the estimates of variance of a particular characteristic, y , for semi-rounds 1 and 2 respectively.

5.1.2 Estimates of ratios for the entire round:

Let \hat{R}_1 and \hat{R}_2 be the estimates of R_1 and R_2 i.e. Y/X based on semi-rounds 1 and 2 respectively with corresponding estimated Mean Square Error, $MSE(\hat{R}_1)$ and $MSE(\hat{R}_2)$. The combined ratio estimate (\hat{R}) and estimate of variance of combined ratio estimate ($MSE(\hat{R})$) was obtained as:

$$\hat{R} = \frac{\hat{Y}_1 + \hat{Y}_2}{\hat{X}_1 + \hat{X}_2}$$

$$MSE(\hat{R}) = \frac{\hat{Var}(\hat{Y}_1) + \hat{Var}(\hat{Y}_2) - 2R \text{cov}(\hat{Y}_1, \hat{X}_1) - 2R \text{cov}(\hat{Y}_2, \hat{X}_2) + R^2 (\hat{Var}(\hat{X}_1) + \hat{Var}(\hat{X}_2))}{(\hat{X}_1 + \hat{X}_2)^2}$$

6. Treatment for zero cases, casualty cases etc.:

6.1 While counting the number of FSUs surveyed (n_{sm} or n_{stm}) in a stratum/sub-stratum, all the FSUs with survey codes 1 to 6 in Schedule 0.0 will be considered. In addition, if no SSU was available in the frame then also that FSU will be treated as surveyed. However, if the SSUs of a particular schedule type were available in the frame of the FSU but none of these could be surveyed then that FSU has to be treated as casualty and it will not be treated as surveyed in respect of that schedule.

6.2 *Casualty cases:* FSUs with survey code 7 as per Schedule 0.0 were treated as casualties. In addition to this, an FSU, although surveyed, may had to be treated as casualty for a particular schedule type and a particular *second stage stratum* as given in the following para:

6.2.1 FSUs with survey codes 1 or 4 as per schedule 0.0 having number of enterprises in the frame of j -th second stage stratum greater than 0 but number of enterprises surveyed according to

data file, considering both segments together, as nil (i.e. $E_{i1j} + E_{i2j} > 0$ but $e_{i1j} + e_{i2j} = 0$) will be taken as casualties for j-th second stage stratum.

All the FSUs with survey codes 1 to 6 as per schedule 0.0 minus the number of casualties as identified above will be taken as the number of surveyed FSUs (n_{stmj}) for that (stratum/sub-stratum) \times (second stage stratum).

When casualty for j-th second stage stratum occurs for a particular segment but not for the other segment, the FSU will not be treated as casualty but some adjustments in the value of E for the other segment will be done as follows:

- (i) Suppose for segment 1, $E_{i1j} > 0$ but $e_{i1j} = 0$ while for segment 2, $E_{i2j} > 0$ and $e_{i2j} > 0$. In that case $D_i^* \times E_{i2j}$ will be replaced by $(E_{i1j} + D_i^* \times E_{i2j})$ in the formula for multiplier of segment 2.
- (ii) Suppose for segment 1, $E_{i1j} > 0$ and $e_{i1j} > 0$ while for segment 2, $E_{i2j} > 0$ but $e_{i2j} = 0$. In that case E_{i1j} will be replaced by $(E_{i1j} + D_i^* \times E_{i2j})$ in the formula for multiplier of segment 1.

It may be noted that n_{smj} or n_{stmj} would be same for segment 1 & 2 of an FSU.

7. Treatment in cases of void second-stage strata/sub-strata /strata at FSU or enterprise level

7.1 A stratum/sub-stratum may be void because of the casualty of all the FSUs belonging to the stratum/sub-stratum. This may occur in one sub-sample or in both the sub-samples. If it relates to only one sub-sample, then estimate for the void stratum/sub-stratum may be replaced with the estimate as obtained from the other sub-sample for the same stratum/sub-stratum.

7.2 When a stratum/sub-stratum is void in both the sub-samples, the following procedure was recommended:

Case(I): Stratum/Sub-stratum void cases at FSU levels (i.e. all FSUs having survey code 7):

- (i) If a rural/urban sub-stratum is void then it may be merged with the other sub-stratum of the stratum.
- (ii) If a rural/urban stratum is void due to all FSUs being casualty, it may be excluded from the coverage of the survey. The state level estimates will be based on the estimates of districts for which estimates were available and remarks to that effect may be added in appropriate places.

Case (II): Stratum/Sub-stratum void case at second stage stratum level (i.e. all the FSUs were casualties for a particular second stage stratum):

An FSU may be a casualty for a particular *second stage stratum* although survey code was not 7. If all the FSUs of a stratum/sub-stratum become casualties in this manner for a particular *second stage stratum*, the stratum/sub-stratum will become void. In such cases, the void second stage stratum will be merged with the nearby second stage stratum within the FSU.

8. Reference to the values of Z_{st} , n_{st} , n_s , z_{sti} , D_{sti} , D^*_{sti} , D_{si} , D^*_{si} , E_{sti1j} , e_{sti1j} , E_{sti2j} , e_{sti2j} :

- (a) Values of Z_{st} , N_{st} and the number of FSUs allotted for the whole round are given in Appendix Tables 2A and 2B for rural sector and in Appendix Tables 3A, 3B and 3C for urban sector.
- (b) Surveyed number of FSUs (n_{st}) should not be taken from the tables. The value of n_{stm} for each sub-sample is to be obtained following the guidelines given in para 6 above. It includes uninhibited and zero cases but excludes casualty cases.
- (c) The value of z_{sti} is to be taken from the column of sample list under the heading 'size' or item 15 of Block 1, Sch 0.0.
- (d) Value of D_{sti} is to be taken from item 18 of Block 1, Sch 0.0. D^*_{sti} is to be calculated from the value of D_{sti} .
- (e) Values of E_{sti1j} , E_{sti2j} are to be taken from column (4), Block 6b of Sch 0.0 for respective segment and second-stage stratum. Values of E_{sti9j} from column (4), Block 6a of Sch 0.0 for segment 9 and second-stage stratum.
- (f) The value of e_{sti1j} and e_{sti2j} should not be taken from column (8), Block 6b of Sch.0.0. The value of e_{sti9j} should not be taken from column (8), Block 6a of Sch.0.0. The figures should be obtained by counting the number of enterprises available in the data file excluding the casualty enterprises.

Appendix D

Schedule 2.34: Unincorporated Non-Agricultural Enterprises (Excluding Construction)

RURAL	*
URBAN	

GOVERNMENT OF INDIA
NATIONAL SAMPLE SURVEY OFFICE
SOCIO - ECONOMIC SURVEY
SEVENTY-THIRD ROUND: JULY 2015 - JUNE 2016
SCHEDULE 2. 34 : UNINCORPORATED NON-AGRICULTURAL
ENTERPRISES (EXCLUDING CONSTRUCTION)

CENTRAL	*
STATE	

[0] descriptive identification of sample enterprise	
1. state/u.t:	6. ward/investigator unit:
2. district:	7. enumeration block (EB)/ UFS block:
3. sub-district:	8. name of owner:
4. village/ town name:	9. name of informant:
5. serial no. of hamlet: (col-1,block-4.1)#	10. name and address of the enterprise:

*tick mark (√) may be put in appropriate place. # refers to schedule 0.0.

[1] identification of sample enterprise									
item no.	item	code			item no.	item	code		
1	serial no. of sample FSU				12	FOD sub-region			
2	round number	7	3		13	segment number (1 / 2 / 9)			
3	schedule number	2	3	4					
4	sample (central-1, state-2)				14	second stage stratum (SSS)			
5	sector (rural - 1, urban - 2)								
6	NSSregion				15	sample enterprise number			
7	district				16	response code			
8	stratum								
9	sub-stratum				17	informant code			
10	sub - round				18	survey code			
11	sub - sample				19	reason for original sample not surveyed (code) [for entry in item 18 = 2 & 3]			

codes for block 1

item 16 : **response code** : informant co-operative and capable - 1, informant co-operative but not capable - 2, informant busy but responded - 3, informant reluctant - 4, others - 9

item 17 : **informant code** : owner – 1, manager – 2, others – 9

item 18 : **survey code**: original enterprise surveyed - 1, substitute surveyed - 2, casualty - 3

item 19 : **reason for original sample not surveyed**: informant busy – 1, informant not available – 2, informant non-cooperative – 3, others – 9

item 204: type of ownership			
proprietary (male)	1	partnership between members not all from the same household	5
proprietary(female)	2	Self- Help Group.....	6
proprietary (transgender).....	3	Trusts	7
partnership with members of the same household	4	others.....	9
item 210: location of the enterprise			
<u>within</u> household premises	1	with fixed premises but without any structure	4
<u>outside</u> household premises:		mobile market	5
with fixed premises and with permanent structure	2	without fixed premises(street vendors) ...	6
with fixed premises and with temporary structure/kiosk/stall	3		
items 221& 222: nature of problems faced by the enterprise			
erratic power supply/ power cuts.....	1	non-recovery of financial dues	5
shortage of raw materials.....	2	non-availability of labour as and when needed.....	6
shrinkage /fall of demand	3	non-availability of skilled labour as and when needed.....	7
non-availability / high cost of credit	4	labour disputes and related problems	8
		others <i>specify</i>).....	9
item 224& 225 : type of assistance received from the government *			
financial loan	1	marketing	5
subsidy	2	raw material.....	6
machinery/ equipment.....	3	others	9
skill development.....	4		

* This will not include any assistance/ subsidy which are passed on to the consumers.

Note 1: Mixed activity: An enterprise at a location will be treated as pursuing mixed activity if it carries out a no. of activities simultaneously and accounts for those activities are not separable. The NIC-2008 Codes for those activities **should be different at 2-digit level**. If accounts are separable, each activity will be treated as separate enterprise.

Note 2: Major activity: It is that activity which yields maximum income (1st) / turnover (2nd) /employment (3rd) (in the order mentioned)

[2] particulars of operation and background information		item no.	code			
(1)		(2)	(3)			
whether pursuing mixed activity? (yes – 1, no – 2)		201				
major activity during the reference month code (5-digit as per NIC 2008) special codes: chit fund – 64193, Self-Help Group (engaged in financial intermediation) – 64309, investment club – 64921, activities of private moneylenders – 64929		202				
description of the major activity during the reference month:						
if 'yes' in item 201	principal minor activity during the reference month code (5-digit as per NIC 2008) [1 st 2 digits of item 202 ≠ 1 st 2 digits of item 203]	203				
type of ownership (code)		204				
whether non-profit institution? (yes, major receipts coming from donation/ grants-1, yes, major receipts not coming from donation/ grants-2, no-3)		205				
if code 1 in item 205	whether non-profit institution serving households (NPISH)? (yes-1, no-2)	206				
if item 204 is '1' to '5'	social group of the owner / major partner (ST-1, SC-2, OBC-3, Others-4, not known-9)	207				
whether the enterprise maintain any bank account/ post office savings bank account ? yes, in owner's name – 1, yes, in enterprise's name -2, yes, both in owner's name and enterprise's name -3, no- 4		208				
number of other economic activities taken up by the entrepreneur during the last 365 days (applicable if entry in item 204 is '1' to '5')		209				
location of the enterprise (code)		210				
enterprise type during the last 365 days (Own Account Enterprise-1, Establishment-2)		211				
year of initial operation under the current owner		212				
nature of operation (perennial – 1, seasonal – 2, casual – 3)		213				
number of months operated during the last 365 days (in whole numbers)		214				
number of hours the enterprise normally worked in a day during the reference month (in whole numbers)		215				
whether accounts maintained ? (yes-1, no-2)		216				
if 'yes' in item 216, whether data collected from books of accounts? (yes-1, no-2)		217				
did the enterprise use computer (s) during the last 365 days? (yes- 1, no -2)		218				
did the enterprise use internet during the last 365 days? (yes- 1, no -2)		219				
did the enterprise face any problem in its operation during last 365 days? (yes-1, no-2)		220				
if 'yes' in item 220, nature of problems faced in its operation during the last 365 days (at most two codes in order of severity of problems)	most severe problem	221				
	next severe problem	222				

[2] particulars of operation and background information			item no.	code
(1)			(2)	(3)
did the enterprise receive any assistance from the government during last three years? (yes-1, no-2)			223	
if 'yes' in item 223, types of assistance received from the government during the last three years (code) (at most 2 codes may be given in descending order of the importance of assistance)	most important assistance		224	
	next important assistance		225	
status of the enterprise over the last 3 years (expanding – 1, stagnant – 2, contracting – 3, operated for less than three years – 9)			226	
whether registered under any act/authority? (yes-1, no-2)			227	
type of registration of the enterprise				
if 'yes' in item 227	whether registered under (yes-1, no-2)	Shops and Establishment Act?	228	
		Municipal Corporation/ Panchayats/ Local Body?	229	
		Vat /Sales Tax Act?	230	
		Provident Fund Act?	231	
		Employees State Insurance Corporation Act?	232	
		Registered with SEBI/ Stock Exchange?	233	
	any other industry-specific Act/ Authority (give at most three codes from any of 01 – 18 or 99 as per the code list)		234	
			235	
		236		
does the enterprise undertake any work on contract basis (yes -1, no -2)			237	
if 'yes' in item 237	type of contract (code)		238	
	for manufacturing enterprises only	equipment supplied by (code)	239	
		raw material supplied by (code)	240	
		design specified by contractor (yes -1, no- 2)	241	
if 'no' in item 237, does the enterprise provide any manufacturing services? (yes -1, no -2)			242	
is the enterprise a franchisee outlet? (yes -1, no -2)			243	
does the enterprise have access to toilet facility? (code)			244	
does the enterprise have provision for solid waste management? (code)			245	
does the enterprise have provision for liquid waste management? (code)			246	

items 234-236 : industry-specific act/authority of registration			
State directorate of industries	1	District Supply and Marketing Society.....	10
Khadi and Village Industries Commission/ Board.....	2	Technical Consultancy Services Organisations/Council for Technological Upgradation.....	11
Development Commissioner of Handicraft /handloom.....	3	Sale tax.....	12
Commodity boards (Coir board, Silk Board, Jute commissioner, etc.).....	04	Indian Charitable Act	13
Directorate of education /AICTE/NCTE	5	Cinematograph act	14
Pollution Control Board.....	6	Money lender's Act (including the State variants).....	15
Directorate General of Foreign Trade/ other export promotion agencies.....	07	Societies Registration Act, 1860 (including the State variants).....	16
State Financial Corporation/Industrial Cooperative Banks/Industrial Development Banks/ SIDBI.....	08	Indian Trust Act/Public Trust Act (including the State variants).....	17
Food safety and Standards Act, 2006.....	9	Employees Provident Fund Organisation (EPFO).....	18
		Others.....	99
item 238: type of contract			
working solely for other enterprise/contractor	1	mainly for customers but also on contract.....	3
mainly on contract but also for other customers	2		
item 239 and 240 : equipment/ raw materials supplied by			
self- procured	1	Both.....	3
supplied by the master unit/ contractor.....	2		
item 244: toilet facility			
yes and in usable condition.....	1	yes, public toilet in the market place/building....	3
yes but not in usable condition.....	2	no toilet.....	4
item 245: provision for solid waste management			
yes, regularly collected by local/civic authority	1	no, throw it on the roadside.....	4
yes, disposes off in the waste treatment centre/ authorized dumping ground.....	2	no, leave it at the location of enterprise/activity..	5
yes, has own waste treatment system.....	3	enterprise does not generate solidwaste.....	6
item 246: provision for liquid waste management			
yes, has own liquid waste treatment system.....	1	no, liquid waste is discharged on the road/ nalla/river.....	3
no, liquid waste is disposed off in the usual waste water discharge	2	enterprise does not generate liquid waste.....	4

[2.1] activities pursued by the enterprise during last 30 days ended on / last calendar month ended on

broad description of the activity	item no.	whether pursued the activity during the reference period (yes-1, no-2)
(1)	(2)	(3)
manufacturing, non-captive power generation and transmission activities (NIC-08 Div. 10-33, 01632, 35103, 35105, 35106, 35107, 35109)	251	
trading activity (NIC-08 Div. 45-47)	252	
transportation , travel agency, tour operator activities (NIC-08 Groups 492, Div. 50,79, excluding 49212, 49213)	253	
warehousing and support activities of transportation (NIC-08 Div.52)	254	
postal and courier activities (NIC-08 Div. 53)	255	
accommodation and food service activities (NIC-08 Div. 55-56)	256	
information and communications activities (NIC-08 Div. 58-63)	257	
financial activities (NIC-08 Groups 643, 649, 6612, 6619, 6621, 663 including special codes for chit fund – 64193, self-help group – 64309, investment club – 64921, activities of private moneylenders – 64929)	258	
real estate, rental and leasing activities (NIC-08 Div. 68, 77 excluding 774)	259	
business and professional service activities(NIC-08 Div. 69 to 74, 78, 80 to 82)	260	
educational activities (NIC-08 Div. 85)	261	
human health, social work and veterinary activities (NIC-08 Div. 75, 86-88)	262	
other personal service activities (NIC-08 Div. 96)	263	
other activities (NIC-08 Industries 37, 38, 39, 90, 91, 92, 93, 941, 949, 95)	264	

[3] principal operating expenses during last 30 days ended on / last calendar month ended on (Rs. in whole number)

(1)	(2)	(3)			(4)
manufacturing, non-captive power generation and transmission activities (NIC-08 Div. 10-33, 01632, 35103, 35105, 35106, 35107, 35109)					
main raw materials consumed	item no.	3 digit product code			value (Rs.)
	301				
	302				
	303				
	304				
other raw materials consumed	305				
purchase value of the goods sold in the same condition as purchased	306				
expenses incurred for manufacturing services	307				
total (items 301 to 307)	309				

trading activity (NIC-08 Div. 45-47)
(exclude transport charges and report them in block 4, if available separately)

main commodities purchased	item no.	3 digit product code			value (Rs.)
	311				
	312				
	313				
	314				
other commodities purchased	315				
total (items 311 to 315)	319				

transportation, travel agency and tour operator activities (NIC-08 Groups 492, Div.50, 79 excluding 49212, 49213)

main items consumed	item no.	3 digit product code			value (Rs.)
petrol, diesel and lubricants	321	5	4	1	
LPG, CNG	322	5	4	3	
rubber products: tyres , tubes	323	5	2	2	
batteries, accumulators, cells	324	8	2	3	
	325				
	326				
other items consumed	327				
travel agent's/ tour operator's payments for passenger fare/ goods transportation by	railways	328			
	land (bus, truck, auto, taxi, etc.)	331			
	air	332			
	water (boat, steamer, ferry, etc.)	333			
minor repair and maintenance of transport equipment	334				
insurance charges paid	335				
storage and warehousing charges paid	336				
parking fees paid for vehicles	337				
hotel & restaurant service charges (room rent, food, drinks, etc.)	338				
total (items 321 to 338)	339				

[3] principal operating expenses during last 30 days ended on / last calendar month ended on (Rs. in whole number)

warehousing and support activities for transportation (NIC-08, Div. 52)

(1)	(2)	(3)			(4)
main items consumed	item no.	3 digit product code			value (Rs.)
jute, cloth, etc. used as consumable stores	341	3	9	9	
pesticide, insecticide, weedicide, fungicide	342	6	1	2	
	343				
	344

mobile broadband	1407	
does the enterprise have a local area network (LAN) as on the date of survey?	1408	
does the enterprise have an extranet as on the date of survey?	1409	

[14] particulars of use of information and communication technology (ICT) by the enterprise during last 365 days ended on / last year(to be canvassed for enterprises with 10 or more workers) (if entry in item 218 or item 219 is '1')

main items (1)	item no. (2)	(yes-1, no-2) (3)
for which of the following activities did the enterprise use the Internet during <reference period>?		
sending and receiving e-mail	1411	
telephoning over the Internet/VoIP, including video conferencing	1412	
getting information about goods and services	1413	
getting information from general government organizations	1414	
interacting with general government organizations	1415	
internet banking	1416	
accessing other financial services	1417	
providing customer services	1418	
delivering products online	1419	
internal or external recruitment	1421	
staff training	1422	
		number
average number of persons employed who routinely used computers during <reference period>.	1423	
average number of persons employed who routinely used the Internet at work during <reference period>.	1424	

item no.	explanatory notes
1401	A web presence includes a website, home page or presence on another entity's website (including a related business). It excludes inclusion in an on-line directory of any other webpages where the business does not have control over the content of the page.
1402	An intranet refers to an internal communications network using Internet protocols and allowing communication within an organization (and with other authorized persons). It is typically set up behind a firewall to control access.
1403	Orders received include orders received via the Internet whether or not payment was made online. They include orders received via websites, specialized Internet marketplaces, extranets, EDI over the Internet, Internet-enabled mobile phones and email. They also include orders received on behalf of other organizations – and orders received by other organizations on behalf of the business. They exclude orders that were cancelled or not completed.
1404	Orders placed include orders placed via the Internet whether or not payment was made online. They include orders placed via websites, specialized Internet marketplaces, extranets, EDI over the Internet, Internet-enabled mobile phones and email. They exclude orders that were cancelled or not completed.
1405	Narrowband includes analogue modem (dial-up via standard phone line), Integrated Services Digital Network (ISDN), Digital Subscriber Line (DSL) at speeds below 256 kbit/s, and mobile phone and other forms of access with an advertised download speed of less than 256 kbit/s. Narrowband mobile phone access services include CDMA 1x (Release 0), GPRS, WAP and imode
1406	Fixed broadband refers to technologies such as DSL, at speeds of at least 256 kbit/s, cable modem, high speed leased lines, fibre-to-the-home, powerline, satellite, fixed wireless, Wireless Local Area Network (WLAN) and WiMAX.
1407	Mobile broadband access services include Wideband CDMA (W-CDMA), known as Universal Mobile Telecommunications System (UMTS) in Europe; High-speed Downlink Packet Access (HSDPA), complemented by High-Speed Uplink Packet Access (HSUPA); CDMA2000 1xEV-DO

item no.	explanatory notes
	and DCMA 2000 1xEV-DV. Access can be via any device (mobile cellular phone, laptop, PDA, etc.
1408	A LAN refers to a network connecting computers within a localized area such as a single building, department or site; it may be wireless.
1409	An extranet is a closed network that uses Internet protocols to share securely a business' information with suppliers, vendors, customers or other business partners. It can take the form of a secure extension of an intranet that allows external users to access some parts of it. It can also be a private part of the business' website, where business partners can navigate after authentication.
1412	VoIP refers to Voice over Internet Protocol
1415	Includes downloading/requesting forms online, making online payments and purchasing from, or selling to, government organizations. It excludes getting information from government organizations.
1416	Includes electronic transactions with a bank for payment, transfers, etc. or for looking up account information.
1417	Includes electronic transactions via the Internet for other types of financial services such as purchasing shares (stocks), financial services and insurance.
1418	Includes providing online or emailed product catalogues or price lists, product specification or configuration online, after-sales support, and order tracking online.
1419	Refers to products delivered over the Internet in digitized form, e.g. reports, software, music, videos, computer games; and online services, such as computer-related services, information services, travel bookings or financial services.
1421	Including providing information about vacancies on an intranet or website, and allowing online applications
1422	Includes e-learning applications available on an intranet or from the World Wide Web.
