Preface

Price is one of the major components affecting a nation's economy. It is the exchange value expressed in monetary terms at a particular time and place. The prices data have a significant role in project formulation, fixation of wages, salary structure, investment decision etc. Prices data is generally classified into three viz (i) Farm prices (Primary Sector) (ii) Wholesale Prices (Secondary Sector) and (iii) Retail Prices (Tertiary Sector). The utility of the prices data in constructing indices namely Consumer Price Index Numbers, Wage Index Numbers, Parity Index Numbers and Wholesale Price Index Numbers also assume significance.

In this publication titled "**PRICE STATISTICS 2003**" Department have included all type of prices data and indices for the year 2003. It is hoped that this publication will serve as a useful source of price information.

This publication is prepared by the prices division under the supervision of Shri.D.Rajan, Additional Director (Prices). The efforts put in by Smt.Ushakumari Kacheriyil, L.D.Compiler, Shri. S.Saseedran, U.D.Typist (Computer Division), Shri K.Soman Nadar, Research Assistant, and Shri V.K. Sreejan, Research Officer, under the guidance of Shri K.Narayanan, Joint Director and Shri. Sreekumar.B, Assistant Director needs special acknowledgements. I appreciate the sincere efforts of these officers in bringing out this valuable publication.

Suggestions for improvement, if any, are most welcome.
