PREFACE

"Many factors influence the pace and direction of the progress of a nation. Capital, Natural resources, Foreign aid and International Trade, Government and Social Institutions all play important roles in modernising a country, but none is more important than man himself." Man power planning is recognised as an essential element of national development policy. It aims at building up the skills, knowledge and competence required for economic development as also at providing the individual with productive and socially useful employment.

The complexity and magnitude of man power planning problems call for continuous and careful assessments of man power resources and their effective utilisation in economic development. In the context of facilitating meaningful estimates in this regard, preparation of comprehensive information base is a basic necessity. It is considered essential as part of this process that a comprehensive Directory is prepared on the available facilities for technical and vocational education and training in the State.

Information was collected from the heads of departments and institutions on the basis of the following broad categories.

- 1) Agriculture, Animal Husbandry, Fisheries and Poultry.
- 2) Medicine.
- 3) Engineering.
- 4) Industrial and Commercial Institutions.
- 5) Other Technical Institutions.
- 6) Training Colleges (B.Ed.)
- 7) Law.
- 8) Co-operation.
- 9) Training Centres for Scheduled Castes and Scheduled Tribes run by the British Welfare Department.

The Directory gives the following information on Technical/Professional Institutions in the State as on 1974.

- a) Name of Institution, Location and Address.
- b) Type of Management.
- c) Courses of study/Training conducted.
- d) Annual sanctioned intake capacity.
- e) Duration of course of study/Training.
- f) Degree/Diploma/Certificate issued.
- g) Other relevant information.

This Directory is prepared by Sri.P.Gopalan, Sri.V.P. Nair and Sri.K.V. Bhattachari, Research Officers of the Bureau. Sri.G.Kuttappan Pillai, Deputy Director guided the work.

It is hoped that the Directory will be found useful to those interested in man power planning.
