DEPARTMENT OF ECONOMICS AND STATISTICS

TRIVANDRUM - 1989

P R E F A C E

Government of Kerala have already decided to consider district and even development block as basic units to plan and execute selected schemes. Since different departments are required to undertake detailed planning exercise, it is important that they have to be provided with adequate and timely data at district and block levels. The department has recently published 'Block Level Statistics' for all the 14 districts. 'District Statistical Hand Books' are intended to present almost all important data depicting the socio-economic conditions of the district.

The District Statistical Hand Book of Idukki was prepared by Smt. K. Santha Kumari, Research Officer under the guidance of Shri. D.K. Vidyanandan, District Officer and Shri. A.M. Haridasan Nair, Deputy Director, District Office, Economics and Statistics, Idukki. The earnest efforts of Shri. P.V. Subramonian Achary, Research Assistant and Shri. Dominic Paul, Investigator of the District Office in collecting and compiling the data are specially acknowledged in this context. I hope that this publication will be of considerable use to planners and researchers who are interested to study the problems of the district.

Suggestions for improvement are most welcome.

P.L. SREEDEVI AMMA,
Director of Economics and Statistics.

Trivandrum,
17-4-1989.
