KOLLAM**

Department of Economics and Statistics

Preface

In order to cater the needs of decentralised planning process this department has taken various measures to collect and publish primary and secondary data from the very bottom level. This is with an objective to help the planners and administrators of local bodies to familiarise with the availability of resources at their command and enabling them for planning from bottom. The publication "District Hand Book" is the first attempt taken by this department.

The data collected and prepared for this publication was earnest effort taken by the personnel working in Kollam District under the able guidance of Sri. S. Rajendran, Deputy Director. I am very appreciated the service rendered by Sri. C.G. Samkuty, Research Assistant in data tabulation and data entry for the preparation of this book, I would like to place my record of gratitude for the co-operation of other departments for furnishing their valuable data in time.

It is hoped that the content of this publication would be useful to Local Bodies, Planners, Administrators and other data users.
