CHAPTER I

Introduction

Statistics as housing is an important indicator of development of dwelling position in the society.

Reliable housing statistics are required for the formation of realistic housing policies. As per the request of National Building Organization we were collecting housing statistics only from urban areas. The National statistical commission in its recommendations regarding collection of housing statistics had requested to collect and compile housing statistics from all local self Government Offices. One of the recommendations of NSC is to prepare regular housing statistics and to publish the same for the use of policy makers. Government have also directed to collect the same. Hence the department had taken steps to collect the available information from all panchayats in the state as first phase. Information regarding number of houses newly constructed, ownership, type of roof use of buildings etc of Kottayam District for the years 2001-02,2002-03 & 2003-04 are collected and compiled in a table format. The report is prepared panchayat wise and block-wise.
