Government of Kerala

***REPORT ON MARKET ARRIVALS FOR THE
YEAR 2004***

MARKET INTELLIGENCE DIVISION
Department of Economics & Statistics
Thiruvananthapuram
2007

Preface

The department of Economics and Statistics is the apex and nodal agency for the collection, compilation and dissemination of statistical data of the various sectors of Kerala Economy. There is a growing demand for statistical data regarding the market arrivals from various users such as Research Scholars, Planners etc. This publication entitled 'Report on market arrivals for the year 2004' contains details of market arrivals from villagers and also from wholesale markets or the retail market centres

The generous cooperation extended by individuals, Government departments, Trade and commerce Establishment etc in making the available required data and work done by the officers and field level staffs of this department are gratefully acknowledged.

This report is the out come of sustained efforts made by Sri. **Sooraj Cheruthottathil**, **Smt. Shamju. B.K**, L.D. Compiler, Sri, **N.P.Ajith**, U.D.Compiler, Sri. **K. Gopinathan Nair** and **D. Samraj**, Research Assistant under the supervision of **Smt. K.Haleema Beegum**, Assistant Director (Prices) and the guidance of Sri. **V.J. Issac** former Additional Director and Sri, **S. Rajendran** Additional Director (Prices).

Suggestion and improvements of this publication are most welcome.

Thiruvananthapuram,

15-02-2007

M.R.Balakrishnan.

Director.

Report on market arrivals for the year 2004

The collection of price is one of the major items of work undertaken by the Department of Economics and Statistics. The importance and utility of the information pertaining to the price movements affect all sectors of economy. Both the scope and coverage of the price collection have undergone many changes and it is the duty of the department to produce qualitative data on prices. For this, knowledge updation for the field level functions has to be effected by way of issuing instructions and giving training to the persons concerned as and when required.

A Scheme for the improvement of market intelligence was implemented in the second five year plan and continued in the third Five year Plan for obtaining necessary market intelligence from all over the state. These data are rapidly processed, analysed and presented in an appropriate manner as to enable Government to keep a watch over the changing price situation and to assist the producers in securing fair prices. These data are also used for planning purposes or taking policy decisions.

The market arrivals include arrivals from villages and also from other markets . Arrivals from villages include the quantities brought by the farmers as well as the quantities brought by village merchants or commission agents etc. The arrivals from other markets include the quantities arrived in a whole sale market from any other whole sale market . From the market arrivals, outgoing quantities are the quantities which go out side the whole sale market either for sale in the retail market for local sale or for despatch to out side market

Stocks will be quantities left in the stock in whole sale traders and commission agents for further sale. The present report contains market arrivals in the state for the year 2004
