## PREFACE

To facilitate decentralised planning the Department of Economics and Statistics is now engaged in building up block level data for each district. The present report relating to Trivandrum district was prepared by the officers and staff of the district office (Economics and Statistics) Trivandrum under the guidance of the Deputy Director, Trivandrum.

It is hoped that this report will be of considerable use to the planners for formulation of schemes and for evaluation of the schemes implemented at the block level. Since attempts are being made to bring out similar publications, for other districts, suggestions for improvement are most welcome.

Trivandrum,  
1-1-1986.

**N. GEORGE JOHN,**  
*Director of Economics and  
Statistics.*

PREFACE

To facilitate decentralised planning the Department of Economics and Statistics is now engaged in building up block level data for each district. The present report relating to Trivandrum district was prepared by the officers and staff of the district office (Economics and Statistics) Trivandrum under the guidance of the Deputy Director, Trivandrum.

It is hoped that this report will be of considerable use to the planners for formulation of schemes and for evaluation of the schemes implemented at the block level. Since attempts are being made to bring out similar publications for other districts, suggestions for improvement are most welcome.

M. GEORGE JOHN,  
Director of Economics and  
Statistics.

Trivandrum,  
1-1-1986.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the role of technology in enhancing data management and analysis. It discusses the benefits of using data management systems and the importance of ensuring data security and privacy.

4. The fourth part of the document addresses the challenges associated with data collection and analysis. It identifies common issues such as data quality, data integration, and data security, and provides strategies to overcome these challenges.

5. The fifth part of the document discusses the importance of data governance and the role of data stewards. It emphasizes the need for clear policies and procedures to govern the use of data and the importance of assigning responsibility for data management to specific individuals or teams.

6. The sixth part of the document discusses the importance of data literacy and the need for training and education. It highlights the benefits of having a data-literate workforce and provides recommendations for developing data literacy programs.

7. The seventh part of the document discusses the importance of data ethics and the need for responsible data use. It highlights the potential risks of data misuse and provides guidelines for ensuring that data is used in a fair and ethical manner.

8. The eighth part of the document discusses the importance of data sharing and the need for interoperable data systems. It highlights the benefits of data sharing and provides recommendations for developing data sharing policies and procedures.

9. The ninth part of the document discusses the importance of data visualization and the need for effective data communication. It highlights the benefits of using data visualization tools and provides recommendations for developing effective data visualization practices.

10. The tenth part of the document discusses the importance of data archiving and the need for long-term data storage. It highlights the benefits of data archiving and provides recommendations for developing data archiving policies and procedures.
